

GLENROSE REHABILITATION HOSPITAL

10230 - 111 Avenue, Edmonton, AB T5G 0B7 | Phone: 780.735.7999 | Fax: 780.735.7976 | www.albertahealthservices.ca/grh

May 2024

The Glenrose Rehabilitation Hospital is the largest freestanding tertiary rehabilitation hospital in North America, serving patients of all ages who require complex rehabilitation to enable them to participate in life to the fullest. As a fully accredited academic teaching hospital, the Glenrose participates in educational training and mentorship programs for health, science and engineering professionals. Our interdisciplinary teams aim to develop clinically relevant research and innovations to improve outcomes for and with patients and families.
