

Provincial Partner Oversight Team News

Important Updates

September 2023

- Thank you for completing the Provincial Partner Oversight (PPO) Outreach Immunization survey! We appreciate your collaboration with our new team and look forward to a successful Outreach Immunization Program.
- If you do not have a vaccine provider for this Influenza season for both Influenza and COVID-19, please contact the PPO Team ASAP to ensure there is no disruption to your vaccine allocation.
- For sites immunizing their own residents and staff, ensure you are meeting the Vaccine Handling & Storage requirements.

The goal of the Provincial Partner Oversight (PPO) Team is to ensure seniors' congregate care facilities across the province have access to Influenza, Pneumococcal, and COVID-19 immunizations for residents. The Team will also facilitate access to Influenza and COVID-19 immunizations for staff.
