

This Health Profile gives a snapshot of the health of the residents who live in this area. Including population, health and socio-economic information, it has been designed to support service planning and to identify issues specific to the people who live in the communities included in this geography.

This profile is part of a set of Health Profiles for Alberta Health Services, published by the Surveillance & Health Status Assessment department in Population & Public Health. To view Health Profiles for other sub-geographies, visit www.albertahealthservices.ca/2173.asp

- This part of the Edmonton Zone has an area of 14 km²
- 42,900 people live here with a density of 3,064 people per km²
- There are 1,315 dwellings per km²
- The average age of people living here is 39.4 years
