OBJECTIVES

To:

- provide a framework of accountability and rules to guide the effective oversight of public resources for the approval, reimbursement, payment, and disclosure of travel expenses, hospitality expenses, and working session expenses (hereinafter referred to as "expenses");
- ensure fair and reasonable practices are in place to demonstrate the expenses are necessary and cost effective;
- ensure individuals are properly reimbursed for expenses incurred on behalf of Alberta Health Services (AHS);
- set the parameters for the public disclosure of information about expenses; and
- set out the criteria for the approval, arrangement, reimbursement, and payment of expenses that support AHS’ business and clinical operations.

PRINCIPLES

AHS is committed to ensuring that expenses incurred, benefit and enhance its clinical and business services. Processes for the approval, arrangement, reimbursement, payment, and disclosure of expenses reflect AHS’ responsibility for the sound financial management of funds and ensure individuals are adequately reimbursed for their expenses. The principles supporting this policy are:

- Taxpayer dollars are used prudently and responsibly with a focus on accountability and transparency.
• Expenses for travel are necessary, provide a cost-effective means to support AHS’ business and clinical objectives, and regard the health and safety of individuals.

• Only legitimate, approved expenses incurred during the course of AHS business are reimbursed or paid.

• Prior approval to incur expenses is obtained where appropriate.

Individuals incurring expenses pertaining to AHS-related business are responsible and accountable for ensuring such expenses meet the expectations of sound financial management and that, regardless of the payment mechanism (e.g., an AHS Procurement Card [P-Card], direct billed to AHS), the expenses are reasonable.

AHS is committed to enhanced transparency and accountability, and shall publicly disclose expense reports in accordance with this policy and applicable legislation. Responsibility and accountability for compliance with this policy is shared among the individuals incurring expenses, the designated signing authorities (“the approver”), and departments with functional responsibilities for overseeing expenses.

APPLICABILITY

This policy applies to all travel, hospitality, and working session expenses incurred and allowances claimed in relation to AHS business, regardless of how an expense has been paid or is being reimbursed.

Compliance with this policy is required by all AHS employees, members of the medical and midwifery staffs, Students, Volunteers, and other persons acting on behalf of AHS.

Contracted service providers shall comply with this policy unless otherwise noted in their contractual agreement with AHS.

A collective agreement takes precedence over this policy and relevant provisions on matters of travel, hospitality, or working sessions in an applicable collective agreement shall be used when there is a conflict with this policy. When a collective agreement is silent on matters of travel, hospitality, or working sessions, the provisions of this policy apply. This policy does not apply with respect to any fee for service or individual employment contractual obligations to make reimbursement or allowances.

ELEMENTS

1. General Requirements and Authority

   1.1 Individuals may travel when there is a valid business reason. Consideration shall be given to the cost effectiveness of travel expenses incurred when travelling to conduct business on behalf of AHS. Cost effectiveness does not necessarily mean the most inexpensive method of travel; consideration of time, impact to service delivery, and safety should be considered when assessing cost effectiveness.
1.2 AHS has an approved travel vendor to provide travel management services (including booking of airfare, bus, accommodations, and vehicle rentals). Individuals who travel on approved AHS business shall make travel arrangements through the travel vendor, and only in exceptional circumstances where the travel vendor is unable to make the travel arrangement, may book through an alternate method.

1.3 Notwithstanding any other provision of this policy:
   a) no expense shall be reimbursed or allowance paid except under this policy;
   b) reimbursement and allowance shall only be made in respect of expenses incurred in relation to AHS business, unless otherwise expressly stated in this policy;
   c) a claimant shall not claim reimbursement and an allowance in respect of the same expense;
   d) a claimant shall not claim reimbursement of alcohol as a part of an expense claim, except as provided for in Section 13.8; and
   e) no individual may approve their own expense, or expense claim.

1.4 Individuals incurring hospitality expenses, working session expenses, travel, meals, accommodation, related incidental expenses, and other expenses expressly described in this policy with a P-Card or billed directly to AHS shall adhere to the requirements of this policy.

1.5 Individuals incurring expenses other than expenses described in Section 1.4 above with a P-Card or an expense billed directly to AHS shall adhere to the requirements and principles set out in this policy and any other relevant AHS governance documents.

1.6 All expenses shall be in compliance with this policy regardless of the payment mechanism, either reimbursed to the employee, incurred on a P-Card or directly billed to AHS.

1.7 Individuals undertaking travel, hospitality, or working sessions and incurring expenses shall avoid real or perceived conflicts of interest, and be in compliance with the AHS Conflict of Interest Bylaw.

1.8 Travel, working sessions, or hospitality funded by external entities shall comply with this policy, the AHS Conflict of Interest Bylaw, the AHS Code of Conduct, and any other relevant AHS governance documents.

1.9 Any expenses that are to be reimbursed or paid by a third party are not eligible for reimbursement or payment by AHS. In the event that the expense has been reimbursed or paid by AHS and subsequently paid by a third party, the claimant shall reimburse AHS for the amount reimbursed or paid by AHS.

1.10 Travel to and from educational events for which prior approval has been obtained shall be reimbursed in accordance with this policy. Approval to travel to and from an educational event does not constitute approval to attend the educational event.

1.11 Travel, working session, and hospitality undertaken on behalf of a research initiative, project, or grant shall be approved, funded, or reimbursed through the respective budget for that initiative, project, or grant and in accordance with this policy, unless otherwise noted in the approved terms of reference and/or grant agreement for the research initiative, project, or grant. In order to qualify for this exemption, the contract, terms of reference, and/or grant agreement shall specifically provide information on the use of funds in relation to the terms covered in this policy. For research initiatives, approved terms of reference requirements are noted in the AHS Research Grants and Clinical Trial Funding Policy.

1.12 AHS does not provide travel advances to individuals travelling on approved AHS business.

1.13 Expense claims may be prepared by a designate, however the individual incurring the expense shall sign and complete all required attestations prior to submitting the claim for approval.

1.14 Individuals required to incur expenses for travel, working sessions, or hospitality on a regular basis are eligible to apply for a P-Card in accordance with P-Card Program requirements set out in the AHS Procurement Card Program Policy, and the respective department's operational requirements.

1.15 When a claimant receives a discount, or credit, only the net expense may be claimed.

1.16 Requests for reimbursement of travel expenses incurred in emergent circumstances, and for which prior managerial acknowledgement is normally required, shall be considered on a case-by-case basis, and require approval to be obtained as soon as possible in accordance with the AHS Delegation of Authority for Financial Commitments “Financial Authorization” Matrix (hereinafter the “Financial Authorization Matrix”).

3. Assessing Cost Effectiveness of Travel

APPENDIX B

Insurance for Privately-Owned Vehicles

1. **Insurance for Privately-Owned Vehicles Used for AHS Business Purposes**

1.1 Where use of a privately-owned vehicle is a requirement of employment which is supported in a new or amended employment contract, collective agreement, or letter of offer, individuals are eligible for reimbursement for the incremental cost of insurance premium up to a maximum of $500.00 per year (or pro-rata if insurance is for less than a year).

1.2 Requests for reimbursement of the incremental amount of insurance premium shall be supported by a new or amended employment contract, collective agreement, or letter offer which includes the requirement of a personal vehicle for employment, proof of insurance coverage, and premium payment when submitting to their manager for approval.

1.3 Individuals shall notify Workplace Health and Safety, and AHS’ Insurance Department (insurance@albertahealthservices.ca) of any accidents resulting in injury to AHS staff, third parties, or damage to other vehicles or property which occurs during travel while on AHS-approved business.

1.4 Vehicle owners are responsible for any losses that may arise, including, without limitation:

   a) the repair costs of any vehicle damage, including insurance deductible;

   b) loss of personal property; and

   c) any damages including liability claims resulting from accidents in privately-owned vehicles while on AHS business.
