RESTRICTED USE	Cyproterone (for treatment of Sexual Behaviors)  Original	1 of 1		
		YY 14	MM 09	DD 26

**PROTOCOL**

For the treatment of inappropriate sexual behaviors secondary to a psychiatric condition, the following conditions must be met:

- 1) The client must be followed on an ongoing basis by a specialist in psychiatry or geriatrics
- 2) There must be documentation that the resident, or in most cases, the resident’s primary decision maker or guardian must be aware of the risks and benefits of cyproterone and consents to therapy for this indication.

**Note:** Funding for carcinoma should be provided through TBCC; cosmetic use is considered non-formulary and must be submitted via the NF process
