

Building a better healthcare system with the voice of Albertans

Who we are

Our Seniors and Continuing Care Provincial Advisory Council is made up of 15 volunteers from across the province. Our members are Albertans who have lived experience with the continuing care system and are passionate about improving care.

How we contribute

We play an important role in supporting the strategic direction of Alberta Health Services (AHS) by engaging Albertans in a respectful, transparent and accountable manner.

Our role is to:

- Advise AHS Board and AHS management on service delivery, policy and program design for a provincewide seniors and continuing care health system.
- Talk with Albertans and advise AHS on what we are hearing about seniors and continuing care services.
- Consider and provide evidence-based suggestions to AHS in the development of AHS' seniors and continuing care health plans.
- Provide a vehicle to identify existing and emerging seniors and continuing care health issues.
- Provide advice to AHS on ways to improve quality, access and sustainability of seniors and continuing care health services in Alberta.

What we do

Healthcare leaders work closely with us to ensure transparency and accountability in how seniors and continuing care services are planned and delivered to Albertans. We work closely with healthcare leaders to ensure continuing care services are planned and delivered with consideration for what is important to Alberta's users of the system.
