

Alberta Health Services is committed to ensuring patients arriving in an emergency department are assessed and treated in a timely fashion. These measures focus on the total length of stay for patients in the emergency department and receiving treatment until they are admitted as an inpatient or discharged. The length of stay in an emergency department may also be reflective of the overall health system including diagnostic and consultation services, admitting capacity, and access to suitable primary care and disease management. In January 2014, AHS introduced 16 annual performance measures. These measures align with national health care standards and benchmarks and provide AHS with a better understanding of how the Alberta health system is performing compared to the rest of Canada. For more information and targets on these measures, please go to Data, Statistics & Reporting webpage on performance measures at <http://www.albertahealthservices.ca/performance.asp>

Discharged Patients

The total Emergency Department Length of Stay (ED LOS) for a patient is calculated from the first documented time after arrival at emergency, whether triage or registration, until the time the patient is discharged. Data are accurate to +/- 2%.

Week of April 14, 2019 through April 20, 2019

Facility Name	Number of Visits	% of visits discharged within 4 hours
Grey Nuns Community Hospital	1,261	57%
Misericordia Community Hospital	713	32%
Royal Alexandra Hospital	1,001	24%
Stollery Children's Hospital	964	62%
University of Alberta Hospital	826	21%

Admitted Patients

The total Emergency Department Length of Stay (ED LOS) for a patient is calculated from the first documented time after arrival at emergency, whether triage or registration, until the time the patient leaves the emergency department as an inpatient. Data are accurate to +/- 2%.

Week of April 14, 2019 through April 20, 2019

Facility Name	Number of Visits	% of visits admitted within 8 hours
Grey Nuns Community Hospital	155	19%
Misericordia Community Hospital	129	26%
Royal Alexandra Hospital	317	35%
Stollery Children's Hospital	96	44%
University of Alberta Hospital	321	36%

% of visits discharged within 4 hours
