

# About ACBI

Acute Care Bundle Improvement (ACBI)

## Overview

Acute Care Bundle Improvement is a provincial quality improvement initiative supporting Medicine and Surgery units at the 14 major adult acute care sites to implement a best-practice bundle of services.

Goals include improving patient outcomes and reducing length of stay through optimizing daily workflows.

## Areas of Focus

ACBI offers a coordinated improvement approach to 8 Areas of Focus:

Note: Medicine Care Paths include Cirrhosis, Heart Failure, and Chronic Obstructive Pulmonary Disease (COPD)

## ACBI empowers frontline teams to

### Improve:

- Patient outcomes and experiences
- Patient flow and length of stay
- Cost savings

### By:

- Prioritizing and incorporating best practices
- Optimizing Connect Care workflow and documentation
- Assessing and reinforcing performance using metrics

## Bee the Change!
