

Musculoskeletal Transformation (MSK-T) Program for Albertans
Project: *Patient and Provider Experiences of MSK Care in Alberta*

Are you a healthcare professional that provides health care services to Albertans with shoulder, knee or low back problems?

We are seeking your participation to help us better understand the quality of musculoskeletal (MSK) healthcare services in Alberta for shoulder, knee, and low back problems. This initiative is part of a broader MSK Transformation project sponsored by the Bone and Joint Health Strategic Clinical Network (BJH SCN).

We are interviewing patients and providers about their experiences and perspectives about health care in Alberta for shoulder, knee and low back problems.

Your participation may consist of:

1. Confidential 1:1 interview

As a healthcare provider who has provided care for patients with shoulder, knee or low back pain, would **YOU** be willing to be interviewed by a member of our research team (~30-45 minute)?

If yes – contact our Research Coordinator at bonejoint.scn@ahs.ca OR fill out our “Consent to Contact” form at your clinic.

2. Recruit patients

Would you be willing to help us **recruit patients** who have presented at your clinic with shoulder, knee, and low back problems for an interview (~45-60 minutes)?

If yes – please tell your patients about our study & display our recruitment posters in your clinical waiting area and consultation rooms AND contact our Research Coordinator at bonejoint.scn@ahs.ca.

We will provide the materials – recruitment poster & study summary – to you!

Study information:

Study Sponsor: Bone & Joint Health Strategic Clinical Network

Partners: Alberta Bone and Joint Health Institute (ABJHI)

Funder: Alberta Health Services

Evaluation Team:

Jason Werle MD, FRCSC	Senior Medical Director BJH SCN Clinical Professor & Chief, Section of Orthopaedic Surgery, University of Calgary, Cumming School of Medicine, McCaig Institute for Bone and Joint Health
Mel Slomp	Executive Director, BJH SCN
Jason Martyn, MScPT	Provincial Osteoarthritis Practice Lead BJH SCN
Breda Eubank, PhD	BJH SCN Research Associate Assistant Professor Mount Royal University
Ania Kania-Richmond	Assistant Scientific Director BJH SCN Adjunct Assistant Professor University of Calgary, Cumming School of Medicine, Dept. of Community Health Services
