

DIABETES, OBESITY & NUTRITION STRATEGIC CLINICAL NETWORK

DIABETIC FOOT CARE CLINICAL PATHWAY

Diabetes Can Knock You Off your Feet

Strategic Clinical Networks (SCNs) are creating improvements within focused areas of health care.

To get the most out of our health care system, AHS has developed networks of people who are passionate and knowledgeable about specific areas of health, challenging them to find new and innovative ways of delivering care that will provide better quality, better outcomes and better value for every Albertan.

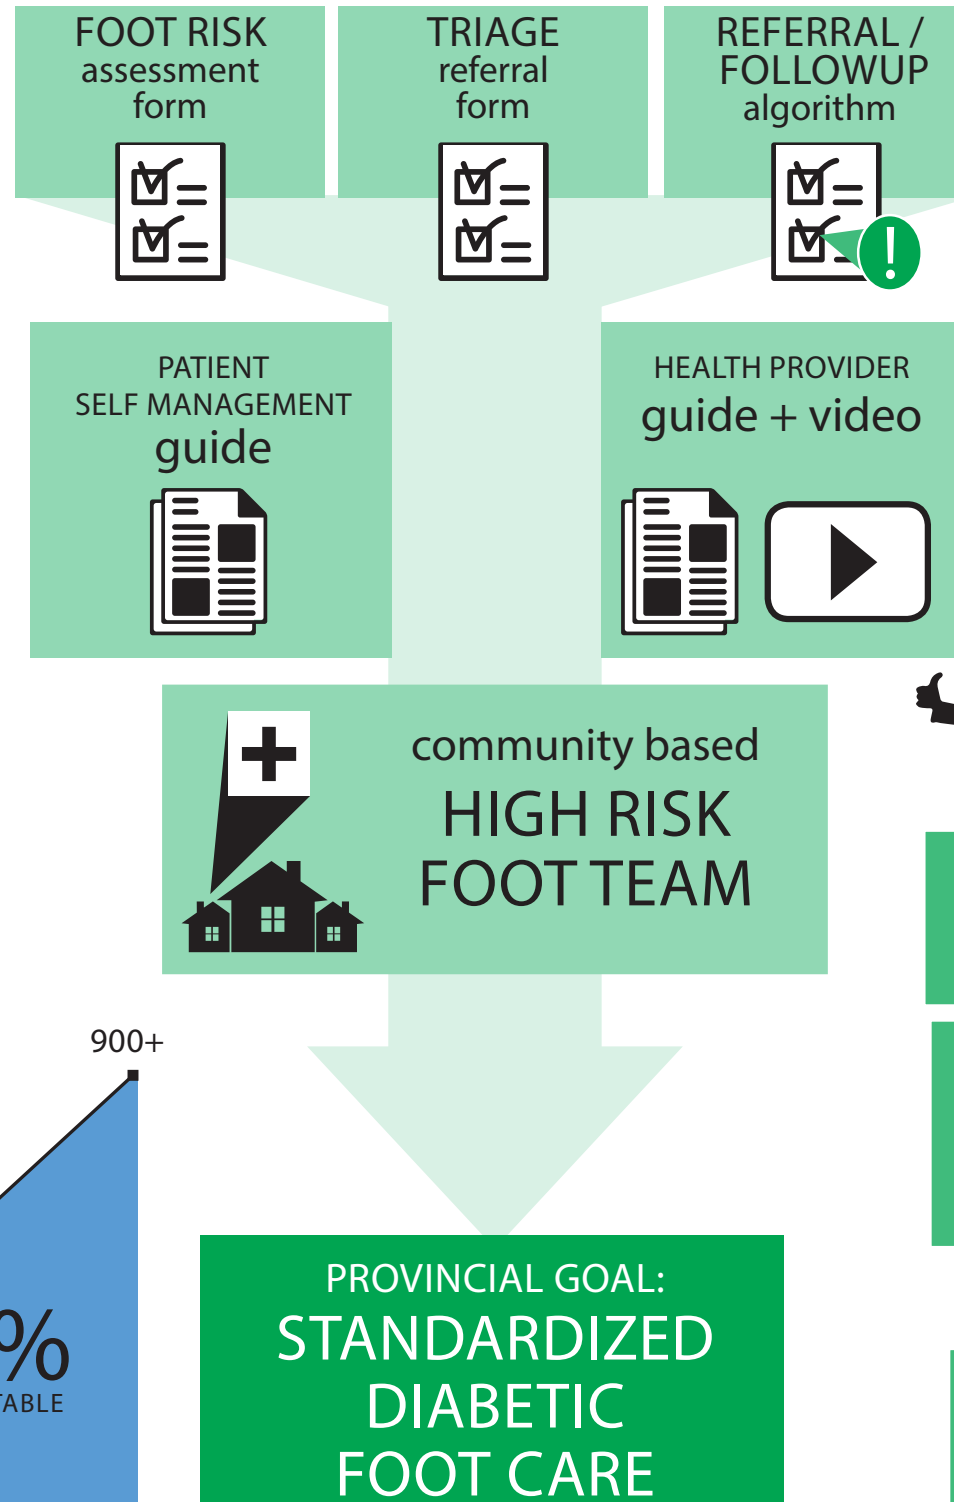

The Diabetic Foot Care Clinical Pathway is a key initiative of the Diabetes, Obesity & Nutrition SCN in response to the rising number of preventable lower limb amputations among people with diabetes.

The pathway promotes and supports earlier detection and treatment of diabetic foot problems in a variety of community settings.

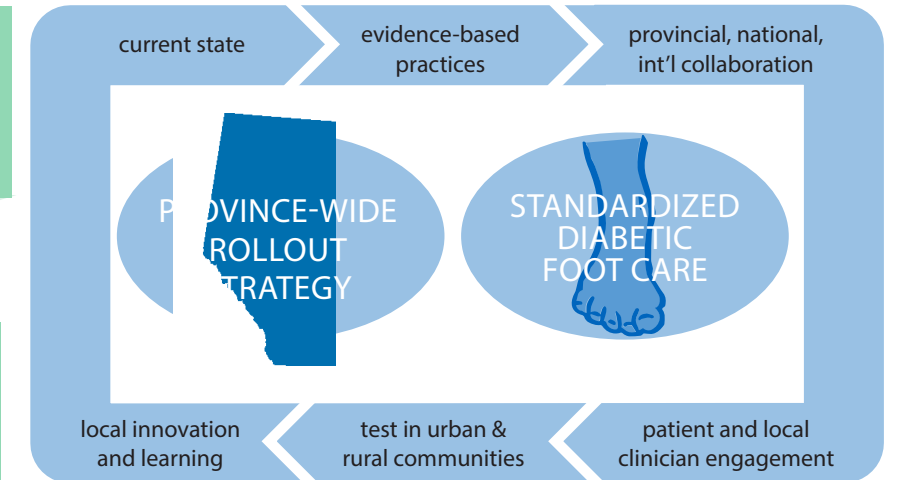

WHY NOW?

WHAT ARE WE DOING?

HOW ARE WE DOING IT?

EXPECTED OUTCOMES
