

# Bringing Lung Test Results onto Netcare

## Progress Bulletin

The Respiratory Health Strategic Clinical Network is building technical and clinical solutions to support all public and interested independent pulmonary diagnostic labs to upload their test results to Netcare.

This work supports clinicians to have diagnostic and assessment details at their fingertips, for the benefit of Albertans with suspected or confirmed lung diseases.

**78%** of public labs connected to date

## Did You Know?

Alberta Netcare is a provincial clinical tool that is available at no charge to authorized health care providers who are providing patient care anywhere in Alberta, regardless of whether or not that health provider is posting health information there. To register for viewing access, phone (toll free): 1-855-643-8649 or email: [ehealthsupport@cgi.com](mailto:ehealthsupport@cgi.com).

**18,550** patient tests annually
