

Dementia Care Partners

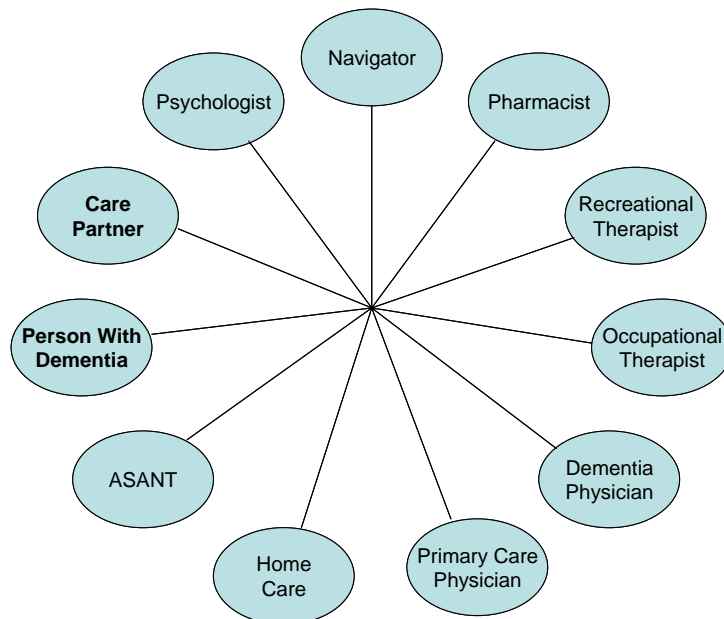

5 Priority Messages for Primary Health Care Teams

1. Certification and Better Education in Dementia Care for all Health Care Professionals

2. Earlier Diagnosis with Care Partner Input

3. Referral and Access to Dementia Resources

- to current available resources
- development of more **comprehensive resources** and a better delivery system through a **multidisciplinary team**

4. Better Community Based Services to Support Persons with Dementia and their Care Partners at Home

5. Emphasis on Person-Centered-Care Across Continuum of Care.
