

Life – My Way...Living well with Dementia, Edmonton Zone & South Zone

Lifestyle Options Retirement Communities

*Project Leads: Renate Sainsbury, General Manager, Lifestyle Options
and Nicole Gaudet, Vice President, Choices in Community Living*

The purpose of this initiative is to increase organizational capacity to deliver, evaluate and sustain the innovative Butterfly Household Model at two Lifestyle Options sites and two Choices in Community Living sites. The Butterfly Household Model was developed by Dr. David Sheard, Founder of Dementia Care Matters, a model of care focusing on relationship based care. Qualitative and quantitative data will be gathered from the participating sites to demonstrate changes in person-centred practice.
