

# Open Doors Outreach Program

## **Open Doors Outreach Program, Edmonton Zone**

CapitalCare Foundation

*Project Lead: Sherry Schaefer, Director, Foundation and Community Engagement*

The Open Doors Outreach Program is a collaborative program held at CapitalCare-designated centres in partnership with Alzheimer Society Alberta North, providing fine arts programming specially designed for those living with dementia. The shared programming model will help to support those who live in the community and those living in care settings who benefit from a customized supported community. This creates a community where accessibility and abilities are celebrated and encouraged for those living with dementia. In addition, this provides opportunities for those with dementia and their caregivers to enjoy a positive activity with others who understand the day-to-day challenges and lifestyle of dementia care. Fine arts programming encourages dementia persons to continue in areas of interest and discover new talents through specially-designed programs of ballet, painting, choral ensemble, and classic symphonic music.
