

Transcript – Meet the Strategic Clinical Networks™ Video

Meet Alberta's Strategic Clinical Networks.

We travel different paths in life.

We rely on good health and good healthcare to get us to where we need to go.

Both are essential to the journey.

So we expect and deserve the best healthcare that's grounded in science and fueled by compassion.

That's where our Strategic Clinical Networks come in.

We're agents of change, driving and inspiring solutions to improve health outcomes across the province.

We keep our eyes on the road ahead.

Each network is unique and we all share the same DNA.

Our teams have the expertise to deliver targeted health innovations.

Each network focuses on a vital area of health.

We help address the most pressing healthcare challenges of our time.

And we do this with others.

Our patients and families guide us. Their stories and experiences inform our approach and processes.

We also gather knowledge from the best researchers and clinicians.

We work closely with our operational partners within Alberta Health Services.

We are grassroots.

We work to ensure every Albertan gets the best possible care when and where they need it most.

Our goal is to improve health outcomes for all Albertans.

To get it right from Fort Chipewyan to Milk River, Jasper to Medicine Hat, and every city and rural hamlet in between.

All Albertans deserve the same access to services, wherever they call home.

Working with patients, families, physicians, operations, communities and researchers, we are making a difference.

We are Alberta's Strategic Clinical Networks. Inspiring solutions. Together.
