

# 2020–21 AHS Employee Influenza Immunization Rates

*by Workplace Location*

April 16, 2021

AHS strongly supports influenza immunization as part of our overall approach to protecting patients and staff. Getting immunized against influenza can help prevent the spread of the virus, stop outbreaks before they start and is crucial to keeping patients and each other safe.

With the COVID-19 pandemic, it's especially important to promote good health and "fight the flu" to reduce the strain on our healthcare system and protect each other from illness.

Influenza Immunization is not mandatory for AHS employees. If an AHS employee chooses to be immunized, it's easy to do so. They can:

- (1) Visit a Workplace Health and Safety (WHS) clinic and/or Site Champion immunizer;
- (2) Visit a Pharmacy or Physician's Office.

Alberta Health (AH) captures immunization records for all Albertans, including AHS employees who have not reported their immunization to AHS. AHS collaborates with AH to overlay the data sets to establish more accurate employee influenza immunization rates regardless of where the immunization was received. Personal information is kept confidential and not disclosed in the presentation of this data.

The following symbols will show each facility's influenza immunization rates and will be updated throughout the campaign.

- = 80% or higher
- = between 60 - 79.9%
- = 59.9% and below

Listed below are each organization's total number of employees and their influenza immunization rate. Both AHS and Partner rates are accurate as of April 16, 2021.

	total # of employees	% immunized
● <b>Alberta Health Services (AHS)</b>	<b>102,598</b>	<b>65%</b>
<b>Partners (non-AHS employees)</b>		
● Alberta Precision Laboratories (APL)	5,551	42%
● Capital Care	2,215	67%
● Care West	2,344	77%
● Covenant Health	10,588	67%

*Influenza immunization rates by site are not represented for Alberta Precision Laboratories, Capital Care or Care West. Site specific rates are included in the following pages for AHS and Covenant Health. Covenant Health also collaborates with AH to accurately determine their own employee immunization rates.*
