

2019–20 AHS Employee Influenza Immunization Rates

by Workplace Location

April 14, 2020

Influenza vaccine has been shown to be an effective measure for reducing the risk of transmission of the influenza virus. Healthcare workers are at an increased risk of both being infected and infecting others. A better understanding of influenza coverage among staff at AHS will help increase the immunization rates for future years.

Influenza Immunization is not mandatory for AHS employees. If an AHS employee chooses to be immunized, it's easy to do so. They can:

- (1) Visit a Workplace Health and Safety (WHS) clinic and/or Site Champion immunizer;
- (2) Visit an AHS Influenza Immunization Clinic (Public Health);
- (3) Visit a Pharmacy or Physician's Office.

Alberta Health (AH) captures immunization records for all Albertans, including AHS employees who have not reported their immunization to AHS. AHS collaborates with AH to overlay the data sets to establish more accurate employee influenza immunization rates regardless of where the immunization was received. Personal information is kept confidential and not disclosed in the presentation of this data.

The following symbols will show each facility's influenza immunization rates and will be updated throughout the campaign.

- = 80% or higher
- = between 60 - 79.9%
- = lower than 60%

Listed below are each organization's total number of employees and their influenza immunization rate.

Date as of		Total # of employees	% Immunized
April 14	Alberta Health Services	97,761	67
April 14	Alberta Precision Laboratories (APL)	5,043	43
April 14	Capital Care	2,332	81
April 14	Care West	2,766	77
April 14	Covenant Health	10,264	68

Notes on the data collection above:

- AHS data is reflective of information in the system as of April 14, 2020.
- Influenza immunization rates by site are not available for Alberta Precision Labs (APL), Capital Care or Care West.
- Site specific rates are included in the following pages for Alberta Health Services and Covenant Health.
- The percentages presented are based on all immunizations reported to AHS and are only as accurate as information submitted to AHS by the partners listed above.
