

228 ml Medline New Life™ Alcohol-based Hand Rub Instructions for Use

1. Press down tab (A).
2. In a downward direction, **gently** squeeze bottle into palm of cupped hand. Apply an adequate amount of product and continuously rub all surfaces of hands until dry. This should take between 15 – 20 seconds
3. Discard bottle when empty.

Note: AHS has several new providers of alcohol-based hand rub. These products meet the [Health Canada requirements](#) for safety, effectiveness and quality and use the [World Health Organization](#) - recommended Handrub Formulations. These new products may look, smell and feel different from other products; they are effective in killing and preventing the spread of microorganisms. Product labels and styles of dispensing pumps may change over time.
