

Check out the revised IPC Acute Care Resource Manual 2018

General Update

- All components of the acute care manual have been updated
- Additional precautions posters and information sheets have been refreshed

[Acute Care Resource Manual Web Page](#)

Contact Precautions

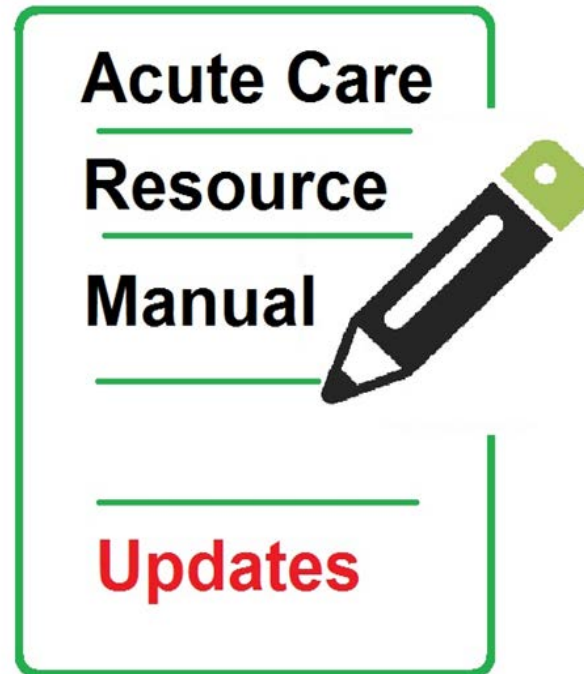

- Combined Antibiotic Resistant Organisms (ARO) and Contact Precautions into a single information sheet
- NEW Sporicidal information incorporated

[Contact Precautions \(including ARO and Sporicidal\) Info Sheet](#)

Personal protective equipment (PPE) for transport

- Updated recommendations to align with PCRA for all patients and all additional precautions

[Quick Guide to PPE for Patient Transport](#)

Diseases & Conditions Table

- Reduced duplication of information
- Consistent messaging for related groups of organisms (e.g. GI illness)
- Improved layout for complex organisms (e.g. Varicella)

[Acute Care Diseases and Conditions Table](#)

Point of Care Risk Assessment (PCRA)

- Updated the format of the algorithm
- Now applicable for all care streams

[Point of Care Risk Assessment](#)

Sporicidal Precautions Poster

- NEW Sporicidal Precautions poster added
- Aligns with AHS Environmental Services (ES) standardized surface disinfectant products
