

Surgery: SPECIALIZED CARE PLAN

**Would your child benefit from a specialized plan
for an upcoming surgery?**

For children with Autism, high anxiety or other special needs, the day of surgery can be challenging. We would like to help your family develop a plan to prepare for surgery in a way that works best for your child.

WE CAN:

- Provide you with details about the day.
- Communicate your child's needs to the Surgical Team.
- Develop a coping plan for your child.

**A Child Life Specialist can work with
your family and the Surgical Team
to help support you.**
