

Safeworks Monthly Report – May 2019 Supervised Consumption Services

June 14, 2019

Background

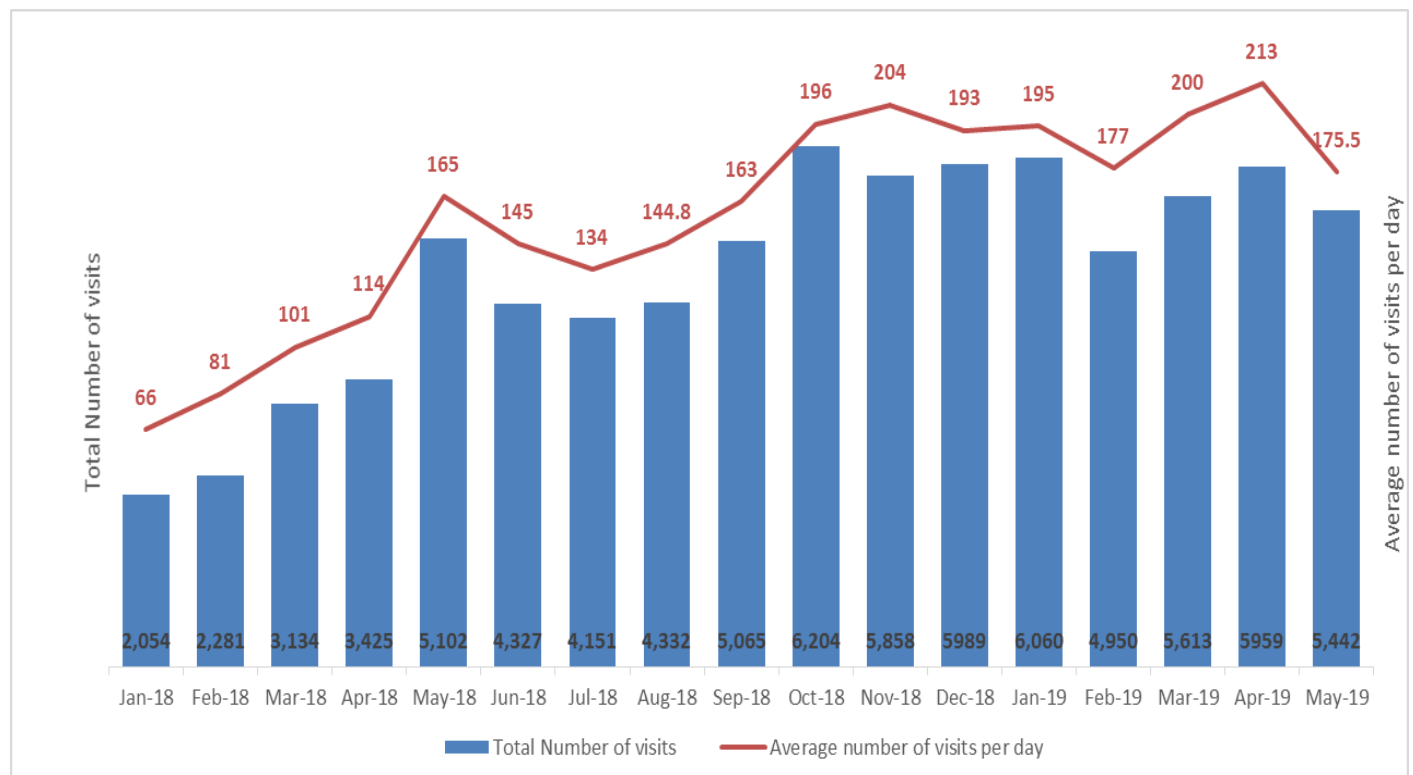

Safeworks Supervised Consumption Services (SCS) launched on October 30th, 2017 in a temporary facility at the Sheldon M. Chumir Health Centre with a federal exemption to the Controlled Drugs and Substances Act from Health Canada. On January 15th, 2018, the temporary facility closed, and the permanent facility inside the Sheldon M. Chumir Health Centre opened for operations. On April 30th, 2018, Safeworks began offering services 24 hours, 7 days a week.

Service Uptake

From October 30, 2017 to May 31, 2019, Safeworks SCS had **82,497 client visits**. In May 2019, the site saw **1038 unique individuals** in **5,442 visits**.

Uptake of services has increased over time. The average number of visits per day has increased from 11 in the first week of operations (October 30 – November 5), to 175.5 visits per day averaged from May 1 to May 31, 2019.

The majority of clients use Safeworks SCS more than once, often within the same day. Not all clients consumed drugs on site; 13.2% of visits in May reflect harm reduction supply and/or naloxone kit distribution, monitoring post-consumption from use off-site, wound care, or social worker.

Safeworks SCS hours of operation are 24 hours per day, 365 days per year. Service uptake is consistent throughout the day.

Drug Use and Overdose Prevention and Response

In May 2019, drugs were consumed on site under the supervision of Registered Nurses (RNs) or Paramedics **4,942 times**. With each client who uses drugs by injection, RNs and Paramedics are available to provide education on vein care, infection prevention, and injection technique. In May, there were zero instances of ingestion (swallowing), and 115 instances of intranasal use (snorting).

The most frequently reported drugs used in May were meth/crystal (2,038 times) and fentanyl (1,759 times). Clients may use more than one drug with a single visit and as such, these counts are not reported as percentages.

Naloxone kits and overdose prevention education are offered to all clients accessing Safeworks SCS, and in May, 284 **overdose response kits** were distributed.

From October 30, 2017 to May 31, 2019, Safeworks staff responded to a **total of 1055 overdoses**.

In May, Safeworks staff responded to **63** overdoses, 61 required supplemental oxygen; 29 overdoses required naloxone and 2 also required an EMS response.
