

Safeworks Monthly Report – July 2019 Supervised Consumption Services

August 11, 2019

Background

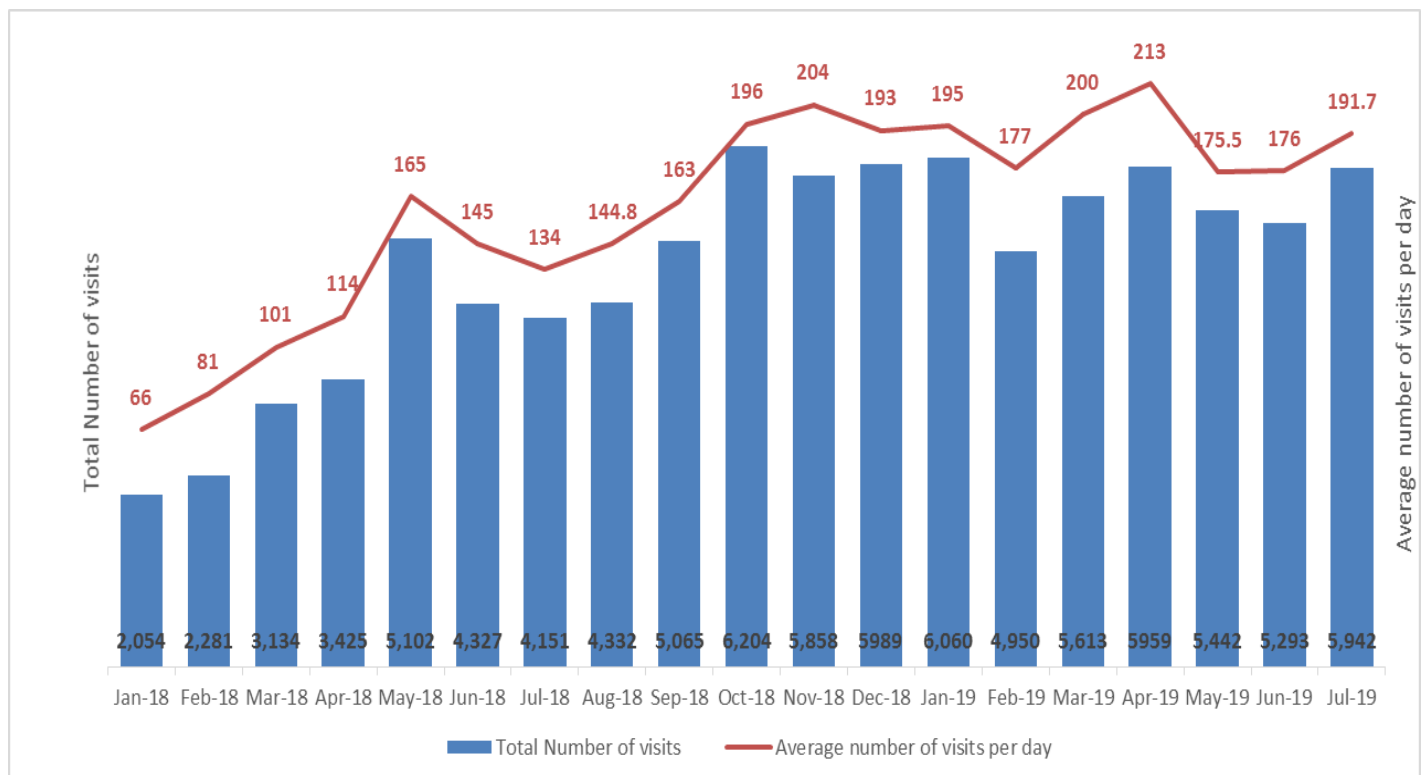

Safeworks Supervised Consumption Services (SCS) launched on October 30, 2017 in a temporary facility at the Sheldon M. Chumir Health Centre with a federal exemption to the Controlled Drugs and Substances Act from Health Canada. On January 15, 2018, the temporary facility closed, and the permanent facility inside the Sheldon M. Chumir Health Centre opened for operations. On April 30, 2018, Safeworks began offering services 24 hours, 7 days a week.

Service Uptake

From October 30, 2017 to July 31, 2019, Safeworks SCS had **93,732 client visits**. In July 2019, the site saw **1179 unique individuals** in **5,942 visits**.

Uptake of services has increased over time. The average number of visits per day has increased from 11 in the first week of operations (October 30 – November 5, 2017), to 191.7 visits per day averaged from July 1 to July 31, 2019.

The majority of clients use Safeworks SCS more than once, often within the same day. Not all clients consumed drugs on site: 22.4% of visits in July reflect receiving harm reduction supplies and/or naloxone kits, being monitored post-consumption from use off-site, receiving wound care or meeting with a social worker.

Safeworks SCS hours of operation are 24 hours per day, 365 days per year.

Drug Use and Overdose Prevention and Response

In July 2019, drugs were consumed on site under the supervision of registered nurses (RNs) or paramedics **4,804 times**. With each client who uses drugs by injection, RNs and paramedics are available to provide education on vein care, infection prevention, and injection technique. In July, there were five instances of ingestion (swallowing), and 155 instances of intranasal use (snorting).

The most frequently reported drugs used in June were meth/crystal (2,121 times) and fentanyl (1,487 times). Clients may use more than one drug with a single visit.

Overdose response kits (containing Naloxone) and overdose prevention education are offered to all clients accessing Safeworks SCS. In July, staff distributed 384 **overdose response kits**.

From October 30, 2017 to July 31, 2019, Safeworks staff responded to a **total of 1136 overdoses**.

In July, Safeworks staff responded to **47 overdoses**. Of these, 45 required supplemental oxygen, 22 required naloxone and three also required an EMS response.
