

Safeworks Monthly Report – January 2021

Supervised Consumption Services

February 11, 2021

Background

Safeworks Supervised Consumption Services (SCS) launched on October 30, 2017 in a temporary facility at the Sheldon M. Chumir Health Centre with a federal exemption to the Controlled Drugs and Substances Act from Health Canada. On January 15, 2018, the temporary facility closed, and the permanent facility inside the Sheldon M. Chumir Health Centre opened for operations. On April 30, 2018, Safeworks began offering services 24 hours, 7 days a week.

Service Uptake

From the start of operations on October 30, 2017 to January 31, 2021, Safeworks SCS had **181,091 client visits**. In January 2021, the site saw **497 unique individuals** in **3,865 visits** with an average of 125 visits per day.

Uptake of services recently declined during the spring COVID-19 response. In response to COVID-19 public health recommendations, Safeworks SCS decreased booth capacity from six booths to three booths on March 19, 2020. On July 20, 2020, booth capacity was increased back to six booths with the proper infection control measures in place. Due to the rise in COVID-19 cases in the fall, booth capacity was reduced again to three on November 10, 2020, and remains in place.

Drug Use and Overdose Prevention and Response

In January 2021, drugs were consumed on site under the supervision of registered nurses (RNs) or paramedics **3580 times**. With each client who uses drugs by injection, RNs and paramedics are available to provide education on vein care, infection prevention, and injection technique. In January, there was 196 instances of intranasal use (snorting).

The most frequently reported drugs used in January 2021 were fentanyl (1578 times) and methamphetamine (1407 times).

Overdose response kits (containing Naloxone) and overdose prevention education are offered to all clients accessing Safeworks SCS. In January 2021, SCS staff distributed **240 overdose response kits**.

Since operations began on October 30 2017 to January 31 2021, Safeworks staff have responded to a **total of 2,390 overdoses**.

In January 2021, Safeworks staff responded to **104 overdoses**. Of these, 104 required supplemental oxygen, 47 required naloxone and 8 also required an EMS response.
