

TEAMWORK FOR PATIENT SAFETY

FOR ASYNCHRONOUS/FACILITATED STUDY

PPS102 Course Outline

Course Description

All members of the health-care team, including patients/families/ care givers, play pivotal roles in determining the effectiveness of the team. In this course, you will learn about the elements of effective teamwork within health-care teams and how to address challenges often faced by these teams. Throughout the course, you will have several opportunities to reflect on how these characteristics apply to your own team as you plan your own team strengthening/ building activity. Participating in effective health-care teams is key to ensuring that the focus remains on providing care based on organizational values with the ultimate goal of advancing a patient safety culture.

Leaner Effort Hours

6 hours
