

## Data and Information Request Process

An initial assessment is conducted to verify the completeness of the request and determine the type of review that is required.

For research projects, a Data
Disclosure Agreement is finalized.
This agreement is governed by
Health System Access

**Request Submission** 

Initial Assessment

Review

Disclosure Agreement

Data Curation & Release

Requestors initiate the process by submitting a request.

Depending on the complexity of the request, either a Standard or Comprehensive Review is conducted. The review may involve team representatives from Cancer Advanced Analytics, Data and Analytics, Health System Access, AHS Privacy, AHS Legal, and other relevant departments. Alberta Health may also be consulted.

Requests can be approved, rejected, or sent back for amendments.
