### Calgary Zone Medical Staff Newsletter – September 2019

#### Connect Care Update

##### *Connect Care Waves 2 & 3 Launch Together*

A decision has been made to align the timing of Waves Two and Three to take advantage of learnings from Wave One. Wave Two will therefore move from March 2020 to May 2020, to coincide with the timing of the Wave Three launch.

##### *Recruiting Wave 2 Calgary Zone Connect Care Area Trainers*

Connect Care will launch at several Calgary zone sites in May 2020, and next week the recruitment starts for physician Area Trainers who deliver Connect Care in-classroom training while promoting transformation and clinical improvement.

At a later stage we will also be recruiting physician Super Users to become clinical experts in use of the system. They will be assigned by site and specialty area to ensure the best support coverage at launch.

Area Trainers and physician Super Users are critical to the success of Connect Care, and will champion the initiative in their teams. There will be an opportunity to extend the role to subsequent waves of Connect Care in the zone.

To learn more and view the postings (next week), please visit the [Calgary Zone physician website](#). To apply please send your CV and letter of intent to [cmio.caz@ahs.ca](mailto:cmio.caz@ahs.ca)
