### Calgary Zone Medical Staff Newsletter – October 2019

#### Connect Care Update

##### *Wave 1 launch around the corner*

Only a few days before the launch of Connect Care in Edmonton. As teams start working with Connect Care, feedback will reach us via AHS communication channels or from your colleagues on the floor. If you have any questions or concerns about what you hear please let us know by emailing [cmio.caz@ahs.ca](mailto:cmio.caz@ahs.ca) for clarification.

##### *Recruiting Wave 2 Calgary Zone Connect Care Super Users*

In the last newsletter we informed you about the posting for Area Trainers for Wave 2, this posting will remain up until the end of October.

We are now starting the recruitment for Super Users for Wave 2. Super Users become clinical experts in use of the system. They will be assigned by site and specialty area to ensure the best support coverage at launch. Super Users will receive early and extensive training on Connect Care to enable them to provide support to their peers.

Area Trainers and physician Super Users are critical to the success of Connect Care, and will champion the initiative in their teams. There will be an opportunity to extend the role to subsequent waves of Connect Care in the zone.

##### *Wave 4 preparations have started*

At the beginning of October we hit the one year mark leading up to launch for Wave 4 in the Calgary Zone which includes the Peter Lougheed Center, the Alberta Children's Hospital and the Department of Family Medicine clinics. In this phase Non-Medical Device Assessments are taking place to assess the needs for devices at the units. In the coming month's preparations for training will start with important work around identifying physicians that will need training. CMIO and Medical Affairs teams will be reaching out to site leads and department managers for support with this crucial work

To learn more and view the Wave 2 postings, please visit the [Calgary Zone physician website](#).

To apply please send your CV and letter of intent to [cmio.caz@ahs.ca](mailto:cmio.caz@ahs.ca)
