

Placing Coordinator Connect Care Onboarding Guide

Section 6: Audits

AHS Email

Please refer to the [Student Onboarding Guide Section 1](#) for additional information about your AHS email.

Audits – Health Information Act

- Clinical and AHS Network access is periodically reviewed by both internal (AHS Internal Audits) and external (Auditor General) auditors under the Health Information Act. The IAM team is required to provide information to these auditors about users that have access to systems, as well as when it was requested, or removed, and who authorized the change in access.
- Student access is now being managed by the HSPnet feed which is populated by the schools.
- For email access issues please see the Student Onboarding Guide on the [student placement website](#) for troubleshooting.
