PSI Confirms Placement In HSPnet
PSI populates student preferred email, DOB, CC role and activates RA IT provisioning in HSPnet. Only requests ILT if they have never taken it previously
AHS Network Account & email (where applicable) is created and an encrypted email with access credentials is sent to student's email address in HSPnet
MLL access established for the CC role training
Student enrolls into eLearning modules in MLL in the Required training tab
Student Completes eLearning & mandatory OOBB before ILT
Learning Supports Team Schedules Student into ILT or schedules a Learning Station if they are retaking the SEUPA
Student Checks MLL For ILT Booking Information
ILT appears in student's MLL
(Students must inform PSI of ILT name, date & time to ensure attendance)
Student attends mandatory ILT* if they have never take the ILT previously
(check MLL for location the day before)
Unsuccessful SEUPA (see external website for SEUPA retest instructions)
SEUPA attempt #2
Unsuccessful SEUPA #2
Additional Supports Available
SEUPA attempt #3
Unsuccessful SEUPA #3
**After 3 unsuccessful SEUPAs, the student's practicum will need to be delayed until student retakes their ILT and passes the SEUPA
Student Passes EUPA/ SEUPA
FINISH!
CC access provisioned
Legend
CC – Connect Care
