6 Electronically signed by: Physician Family Medicine, MD
CPSA/CRNA/ACP: 12345
Phone: 555-555-5555 Fax:

7 Date and time of transmission: 05/07/2023 12:17 This fax is intended for TEST, COMMUNITY PHARMACY at fax number
780-670-3628 Phone number: Not available

1. Standard AHS fax header. Ensure the transmission date and time is within 30 minutes of the date and time of transmission seen in box 7. If they are substantially different, the prescription may be fraudulent; please contact the originating prescriber.
2. Standard AHS Connect Care electronic prescription header
3. Prescription date
4. Patient information, including ULI and date of birth
5. Order ID (unique to each medication prescribed)
6. Electronic authentication by the prescriber, including prescriber registration number
7. Date and time of prescription transmission (should be within 30 minutes of the date and time in the fax header, box 1).

Validation Tool Instructions

Visit <https://rxvalidate.albertahealthservices.ca>

From the faxed prescription, enter the Order ID for the medication (from box 5, above), the prescription date (box 3, above) and the patient ULI (from box 4, above).

Then enter the security code in digits that match the word displayed directly above and click "Verify".

Prescription Validation

Verify a prescription by entering the following information.

All fields are **required**.

Order ID
Enter 7 digit order ID

Rx Date 
Enter order date

ULI
Enter 9 digit Unique Lifetime Identifier

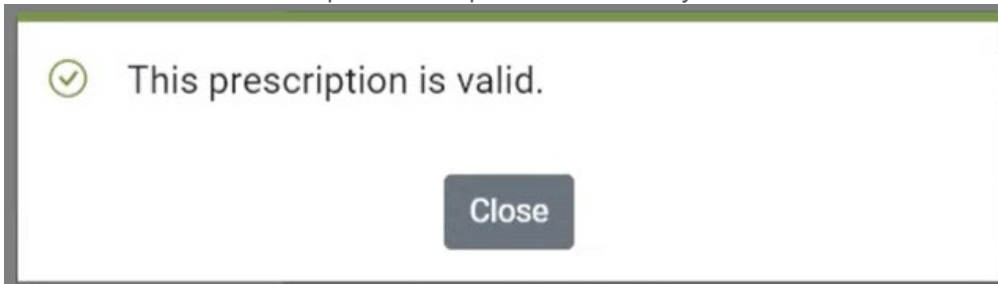

Security Code
Please enter "12" for "Twelve"

Thirteen 

Verify 

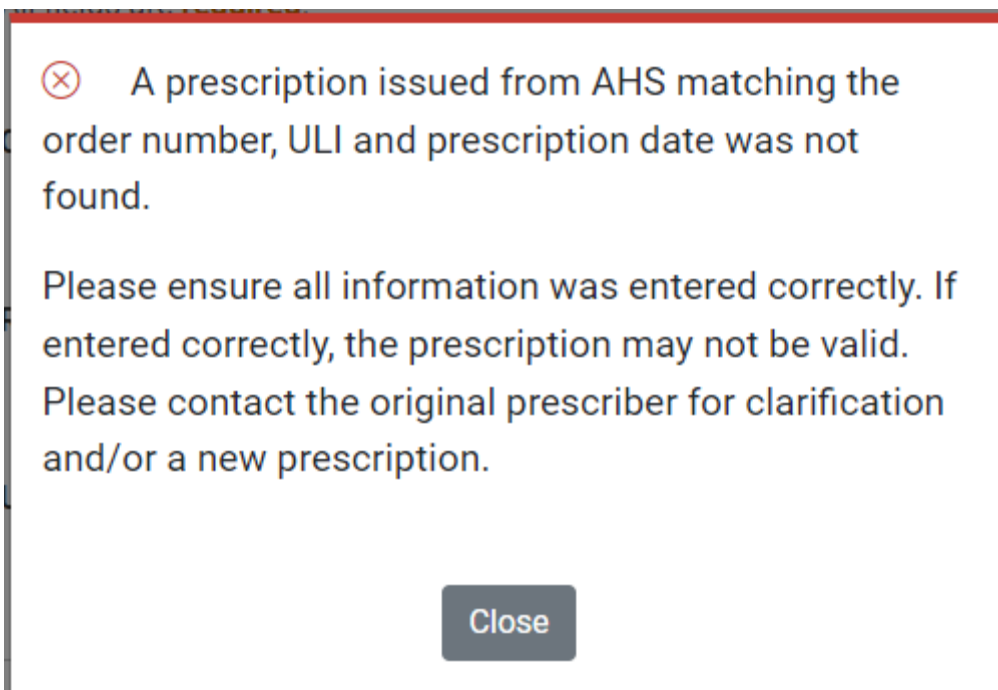

You will receive one of two possible responses from the system:

The prescription is authentic and was issued from Connect Care.

Note: If you wish to validate another medication from the same prescription, close the above box, change the order ID to match the next medication, and click "Verify" again.

Please double-check that the order ID, prescription date, and patient ULI are entered correctly. If all are entered correctly and the above message displays on clicking "Verify", the prescription is not valid and was not issued from Connect Care. **Contact the original prescriber to obtain another prescription.**

For technical issues with the AHS prescription validation tool, please contact RxValidator.Technical.Help@ahs.ca.
