

## Physician Area Trainers (AT)

### Role:

Responsibilities include;

- Adaptation of Connect Care training curricula to physician and clinical area needs,
- In-person training of physicians before launch,
- Support and development of Super Users,
- Onsite support for new Connect Care users,
- Design and delivery of personalization and optimization workshops and labs,

Participating in specialty workflow training, site shadowing and training simulations

### Getting Trained (64 hours):

| Topic                                  | Hours  |
|--|--|
| How to train an Epic end user training | Approximately 4-6 hours (online or classroom)      |
| CMIO Training Tracks training          | Approximately 8 hours (in classroom)               |
| Teach backs                            | Approximately 16 hours                             |
| In Person Training team time           | Approximately 32 hours (on average 1 day per week) |

### Supporting the Training of Others (60 hours):

Area Trainers will train End Users and Super Users for their roles as well as delivering formal training to physicians on Connect Care including basic training, personalization & optimization. Area Trainers will teach approximately 4 classes per stream (Basic, Personalization, Optimization)

### Launch Support and Additional Training Delivery (36 hours):

Area Trainers are some of the most effective individuals to have for launch support due to their extensive knowledge of the system and experience in training their colleagues.

### Cost/ compensation:

Stipend to be paid in blocks coinciding with program milestones:

- complete training;
- delivering training
- delivering launch support or additional training delivery

Depending on specific payment arrangements compensation may slightly differ in individual cases.

Compensation may differ for those AT who do not need to provide the full 60 hours Supporting the Training of Others and 36 hours of Launch Support.
