<i>Compensation</i>	Remuneration is in accordance with AHS contractor agreements
<i>Positions</i>	150
<i>Posting</i>	Calgary Zone Physician website
<i>More Information</i>	Calgary Zone Physician website

Overview

Connect Care Super Users (SUs) support users of the Connect Care clinical information system (CIS) in one or more areas of clinical specialization. SUs work with peers, helping them adapt to new workflows while building capacity for meaningful use of the Connect Care CIS. SUs facilitate physician participation in readiness activities and ensure clinically appropriate CIS build and testing. SUs build relationships with peers to support physicians "at the elbow" prior to, during and following launch. SUs are change agents who take ownership of the Connect Care CIS.

Accordingly, they work closely with zone medical leadership and co-report to the Calgary Zone Associate Chief Medical Information Officer (ACMIO). It is possible for Physician Design Leads, Medical Informatics Leads, and other physician roles or physician contributors to extend their Connect Care commitment by adding a SU role for a larger overall FTE allocation.

AHS is recruiting for SUs in the following specialty/clinical areas:

- Addictions Mental Health
- Anesthesiology
- Cardiac Sciences
- Child Health
- Clinical Neurosciences
- Critical Care (Adult, NICU, PICU)
- Emergency Medicine
- Gastroenterology
- General Internal Medicine and Medicine Subspecialties;

- General Surgery and Surgical Subspecialties
- Neonatology
- Obstetrics and Gynecology
- Oncology
- Radiology
- Women's Health

Expectations

SUs enjoy both clinical and technical challenges. They are approachable and have good people skills. They combine Connect Care system enthusiasm and knowledge with organizational street-smarts and excel at “getting stuff done”. Physician SUs have a deep knowledge about all aspects of clinical service delivery. They may have specific informatics roles in their clinical communities and be tasked with leveraging Connect Care CIS for the maximum benefit to those communities

Getting Trained: (24 hours compulsory)

SUs will receive training specific for their practice area, with attention to how training can be best supported for users. Additionally, SUs will be provided with training to support them as change agents.

Supporting the Training of Others: (10 hours est)

SUs will reinforce the formal training received by physicians, by supporting Area trainers in providing classroom training for physicians including basic training, personalization & optimization. They will help peers adapt to new workflows, processes and norms while building capacity for meaningful use of Connect Care.

Launch Support (95 hours est):

SUs shoulder-to-shoulder (peer “at the elbow”) support to physician colleagues within the specialty, department, specific clinical area, and/or subject matter area prior to, during and following launch.

Launch support will consist of the following:

- Initial 2 weeks from launch day (in June 2020) “at elbow” support will be required on site for the hours of operation for each department, specialty or specific clinic area. (75 hours est)
- Support will continue for the next 4 weeks, and will be designed to meet the needs which may include an on-call system or onsite coverage. (20 hours est)
- When providing launch support, SUs may attend daily issues meetings, reporting outcomes to the specialty, department, specific clinical area, and/or subject matter area, and distributing daily communications, such as tip sheets, to help implement new changes.

There will be an opportunity to extend the role to subsequent waves of Connect Care in the zone.

Compensation

Stipend to be paid in blocks coinciding with SU program milestones for a total of \$ 13,500 if all milestones are participated in:

- \$1,000 for complete training;
- \$1,500 for delivering training;
- \$9,000 for initial launch support
- \$2,000 for post-launch support

Hours and compensation may differ for those SUs who do not need to provide the full 10 hours Supporting the Training of Others and 95 hours of Launch Support. Flexibility in the role can occur at the discretion of the ACMIO. Some amount of travel is expected and will be supported as per AHS travel cost policy.
