

Mobile Integrated Healthcare Clinical Services

Focused Assessment

- Abdominal
- Cardiovascular
- Circulatory Status
- Geriatric
- Hydration Status
- Integumentary
- Mental Health & Addiction
- Musculoskeletal
- Neurological
- Palliative Care
- Respiratory
- Wounds

Clinical & Treatment

- Anterior nasal packing and removal of nasal packing (Rapid rhino)
- Bladder Irrigation – Intermittent
- Chemotherapy Bottle Disconnect
- CVAD access and occlusion management
- Electrolyte Supplementation
- In-line fluid / blood warmers
- Hypodermoclysis
- Medication Bridge Supply
See formulary on AHS EMS app for complete list of available medications.
- Fluid Administration
(IV, SQ, Port, PICC, CVC)
- Infusion Pumps
Normal saline, Lactated Ringers, D5W
- Medication Administration
(IV, SQ, PO, PORT, PICC, CVC, IM)
Analgesics, anticholinergics, antiemetics, antihistamines, anti-infective agents, antipyretics, anxiolytics, bone resorption inhibitors, cardiovascular agents, coagulation therapy, diuretics, psychotherapeutic agents, steroids, topical anesthetics, vitamins & minerals
- Nasogastric Tube insertion
- Ring Cutter (electric & manual)
- Oxygen and Nebulizer Therapy
- Specimen Collection
- Sterile Technique
- Transfusion (RBC, Platelets, Albumin)
Calgary Zone & South Zone only
- Urinary/Suprapubic catheterization and management
- Wound closure & care
Simple suturing, staples and tissue adhesive, Suture & staple removal, Wound care (not supported by other care team), Wound packing (chronic)
- Withdrawal Management

Diagnostics

- Diagnostic Imaging
appointment set-up
(general x-ray, U/S)
- ETCO₂ (End-tidal carbon dioxide)
- Neck Vein Exam & JVP Measurement
- Point of Care Blood Tests
i-STAT Chem 8 cartridge
(Na, K, Cl, TCO₂, Anion Gap, iCa, Glucose, Urea, Crea)
- Specimen Collection for STAT testing
(Blood, Urine, Throat, Wound, Hematology (stat), Blood cultures, Chemistry, Coagulation, Type & Screen, Microbiology, Urine, Wound, NP, and Throat Swabs)
- Weight (if patient has scale)
- Vital Signs
Community Paramedics will assess Vital Signs on arrival for all patients.
(GCS, HR, RR, Temp, Blood Pressure, SpO₂)
- 12/15 lead ECGs
(not interpreted by a cardiologist)

Formulary

- acetaminophen 325 mg
- acetylsalicylic acid 80 mg
- adenosine 3 mg/mL (2 mL)
- alteplase 2 mg
- amoxicillin 250 mg
- amoxicillin-clavulanic acid (7:1) 875 mg-125 mg
- apixaban 5 mg
- atropine 0.2 mg/mL (5 mL)
- AZITHromycin 250 mg
- calcium gluconate 100 mg/mL (10 mL)
- ceFAZolin 1 g
- ceFIXime 400 mg
- ceftAZidime 1 g
- cefTRIAXone 1 g
- cefUROXime axetil 250 mg
- cephaLEXIN 500 mg
- cetirizine 10 mg
- ciprofloxacin 250 mg
- clindamycin 300 mg or 150 mg/mL (2 mL)
- cloNIDine 0.1 mg
- dexAMETHasone 4 mg/mL
- dextrose 50% (50 mL)
- diazePAM 5 mg
- diclofenac 50 mg
- dimenhyDRINATE 50 mg
- diphenhydrAMINE 50 mg
- doxycycline 100 mg
- EPINEPHrine 10 mL & 1 mL
- ertapenem 1 g
- fentaNYL 50 mcg/mL
- furosemide 20 mg & 4 mL
- gabapentin 300 mg

Formulary

- glucagon 1 mg
- haloperidol 1 mg, 5 mg or 1 mL
- heparin, lock solution 10 unit/mL
- hydrocortisone 1%
- hyoscine butylbromide 10 mg
- ibuprofen 200 mg
- ipratropium 20 mcg/actuation
- ketorolac 30 mg/mL (1 mL)
- lactulose 667 mg/mL (15 mL)
- levoFLOXacin 250 mg
- lidocaine 5 mL or 20 mg/mL
- lidocaine-prilocaine 2.5%-2.5%
- LORazepam 1 mg
- magnesium sulfate 200 mg/mL
- methylPREDNISolone sodium succinate 125 mg
- metoclopramide 5 mg or 2 mL
- metOLazone 2.5 mg
- metoPROLOL 25 mg or 5 mL
- metroNIDAZOLE 250 mg or 100 mL
- midazolam 5 mg/mL
- morphine 10 mg/mL (1 mL)
- naloxone 1 mg/mL
- nitrofurantoin 100 mg
- nitroglycerin 0.4 mg/actuation or 0.8 mg/hour
- ofloxacin 0.3% (5 mL)
- OLANZapine 2.5 mg
- Ondansetron 4 mg or 2 mL
- oseltamivir 30 mg or 45 mg
- piperacillin-tazobactam 3.375 g
- potassium chloride 600 mg
- predniSONE 50 mg
- probenecid 500 mg
- QUETiapine 25 mg
- remdesivir 100 mg
- salbutamol 100 mcg/actuation
- scopolamine 0.4 mg/mL
- sodium bicarbonate 8.4% (50 mL)
- sodium phosphate monobasic 500 mg
- sodium polystyrene sulfonate 1 g
- sulfamethoxazole-trimethoprim 80 mg-160 mg
- tetracaine 0.5% (0.5 mL)
- vancomycin 500 mg or 1 g
- vitamin B1 (thiamine) 100 mg or 1 mL
