

# Routine Immunization Schedule

Age	Vaccine(s) your child/you will get	Diseases your child/you will be protected against
 <b>2 months</b>	<ul style="list-style-type: none"> <li>DTaP-IPV-Hib-HB *</li> <li>Pneumococcal conjugate</li> <li>Rotavirus</li> </ul>	<ul style="list-style-type: none"> <li>Diphtheria, tetanus, pertussis (whooping cough), polio, <i>Haemophilus influenzae</i> type b, hepatitis B</li> <li>Pneumococcal Disease</li> <li>Rotavirus</li> </ul>
 <b>4 months</b>	<ul style="list-style-type: none"> <li>DTaP-IPV-Hib-HB *</li> <li>Pneumococcal conjugate</li> <li>Meningococcal conjugate (MenconC)</li> <li>Rotavirus</li> </ul>	<ul style="list-style-type: none"> <li>Diphtheria, tetanus, pertussis (whooping cough), polio, <i>Haemophilus influenzae</i> type b, hepatitis B</li> <li>Pneumococcal Disease</li> <li>Meningococcal Disease</li> <li>Rotavirus</li> </ul>
 <b>6 months</b>	<ul style="list-style-type: none"> <li>DTaP-IPV-Hib-HB *</li> <li>Pneumococcal conjugate (for children at high risk only)</li> </ul>	<ul style="list-style-type: none"> <li>Diphtheria, tetanus, pertussis (whooping cough), polio, <i>Haemophilus influenzae</i> type b, hepatitis B</li> </ul>
 <b>12 months</b>	<ul style="list-style-type: none"> <li>MMR-Var</li> <li>Pneumococcal conjugate</li> <li>Meningococcal conjugate (MenconC)</li> </ul>	<ul style="list-style-type: none"> <li>Measles, mumps, rubella, varicella (chickenpox)</li> <li>Pneumococcal Disease</li> <li>Meningococcal Disease</li> </ul>
 <b>18 months</b>	<ul style="list-style-type: none"> <li>DTaP-IPV-Hib</li> <li>MMR-Var</li> </ul>	<ul style="list-style-type: none"> <li>Diphtheria, tetanus, pertussis (whooping cough), polio, <i>Haemophilus influenzae</i> type b</li> <li>Measles, mumps, rubella, varicella (chickenpox)</li> </ul>
 <b>4 years</b>	<ul style="list-style-type: none"> <li>Tdap-IPV</li> </ul>	<ul style="list-style-type: none"> <li>Tetanus, diphtheria, pertussis (whooping cough), polio</li> </ul>
 <b>Grade 6</b>	<ul style="list-style-type: none"> <li>Hepatitis B (2 doses, 6 months apart if not already given in childhood)</li> <li>HPV (2 or 3<sup>†</sup> doses over 6 months)</li> </ul>	<ul style="list-style-type: none"> <li>Hepatitis B</li> <li>Human papillomavirus</li> </ul>
 <b>Grade 9</b>	<ul style="list-style-type: none"> <li>Tdap</li> <li>MenC-ACYW</li> </ul>	<ul style="list-style-type: none"> <li>Tetanus, diphtheria, pertussis (whooping cough)</li> <li>Meningococcal Disease</li> </ul>

\* DTaP-IPV-Hib-HB – for children born on or after March 1, 2018. Children born before March 1, 2018, are offered DTaP-IPV-Hib at ages 2, 4 and 6 months and Hepatitis B vaccine in school.

† A 3rd dose of HPV is needed only for students starting the vaccine series at 15 years of age or older and anyone with a weak immune system.

See reverse for more information.

Age	Vaccine(s) your child/you will get	Diseases your child/you will be protected against
 <b>Adult</b>	<ul style="list-style-type: none"> <li>• Tdap (1 dose for adults who are not immunized for pertussis and 1 booster dose every 10 years; if pregnant see below)</li> <li>• Hepatitis B (3 doses for unprotected adults born in 1981 or later)</li> <li>• HPV (3 doses for adults up to and including age 26 years who did not get HPV vaccine in school)</li> <li>• MMR for adults born in 1970 or later and no record of vaccine (2 doses)</li> <li>• Varicella (chickenpox) for unprotected adults (2 doses)</li> <li>• Pneumococcal conjugate at 65 years of age or older</li> <li>• Polio (3 doses for people who are not immunized)</li> <li>• RSV (1 dose for adults age 60 years and older who live in continuing care and supportive living facilities or are Indigenous, and adults age 70 years and older)</li> </ul>	<ul style="list-style-type: none"> <li>• Tetanus, diphtheria, pertussis (whooping cough)</li> <li>• Hepatitis B</li> <li>• Human papillomavirus</li> <li>• Measles, mumps, rubella</li> <li>• Varicella (chickenpox)</li> <li>• Pneumococcal Disease</li> <li>• Polio</li> <li>• Respiratory syncytial virus</li> </ul>
 <b>Pregnant</b>	<ul style="list-style-type: none"> <li>• Tdap with every pregnancy</li> </ul>	<ul style="list-style-type: none"> <li>• Tetanus, diphtheria, pertussis (whooping cough)</li> </ul>
 <b>Everyone (6 months of age and older)</b>	<ul style="list-style-type: none"> <li>• Annual influenza (2 doses for children under age 9 years if getting this vaccine for the first time)</li> <li>• COVID-19 ‡</li> </ul>	<ul style="list-style-type: none"> <li>• Influenza</li> <li>• COVID-19</li> </ul>

‡ When to get a COVID-19 vaccine depends on your age, health, and when you had your last dose. Go to [ahs.ca/covidvaccine](https://ahs.ca/covidvaccine) for more information.

**Note:**

More vaccines may be needed because of health conditions, work, school, living arrangements, household contacts, lifestyle risks, travel, or because a person was not fully immunized in childhood. Check with your healthcare provider, a public health nurse, your workplace health and safety department, or a travel health clinic to find out if you need any other vaccines and if they are free for you.
