* DTaP-IPV-Hib-HB – for children born March 1, 2018 or later. Children born before March 1, 2018 will get DTaP-IPV-Hib at 2, 4 and 6 months and Hepatitis B in school.

** Rotavirus – 3 dose schedule will be effective as of May 14, 2018.

Note: More vaccines may be needed because of health conditions, work, school, living arrangements, household contacts, lifestyle risks, travel, or because a person was not fully immunized in childhood. Check with your healthcare provider, a public health nurse, your workplace health and safety department, or a travel health clinic (e.g., AHS Travel Health Services) to find out if you need any other vaccines and if they are free for you.
