Success Story

Over the past year, the Edmonton Zone team has addressed staffing challenges and built on the success of last year's Zone Infection Control Committee. They have added 159 new site-based reviewers, increasing observation counts by 44% above target. The hand hygiene team collaborated with Leduc Community Hospital's infection control professionals and site managers to recruit, train, and refresh site-based reviewers and reestablish the SBR program. The site took ownership of the program and won the "Rising Star" award at the 2023/24 Hand Hygiene Excellence Awards for significant improvement in their Hand Hygiene program.
