

On-line Training Sites related to Complex Service Needs or PDD/specific to Dual Diagnosis

This is an informal collection of on-line and other available learning/training resources related to Complex Service Needs or PDD/specific information and/or Dual Diagnosis services. This list is a sample of websites, education and training sites that may be of interest to service providers. This list is not exclusive or exhaustive but is a starting point to find useful and relevant education.

Feel free to forward this information and contact complex.needs@ahs.ca if you would like to make a contribution to this list.

David Pitonyak – His practice is based upon a simple idea: difficult behaviors result from unmet needs. In a sense, difficult behaviors are messages which can tell us important things about a person and the quality of his or her life.

SMART Recovery

SMART is a free self-help program for recovery from addictive behavior. Groups are led by a lay-coordinator. Most groups also have a volunteer advisor who is a mental health professional. Our purpose is to support individuals who have chosen to abstain, or are considering abstinence from any type of addictive behavior, (substances or activities), by teaching how to change self-defeating thinking, emotions, and actions; and to work towards long-term satisfactions and quality of life.

<http://www.smartrecovery.ca/>

In Alberta, the following post-secondary institutions offer training programs in Human Services:

- **Bow Valley College in Calgary and On-line Studies**

As part of the School of Community Studies and Creative Technology, we offer an array of programs designed to make a difference in the lives of others.

<http://www.bowvalleycollege.ca/programs-and-courses/human-services.html>

- **University of Calgary** - four year degree program

Community Rehabilitation and Disability Studies Degree program considers some certificate and diploma courses as pre-requisites. <http://www.creds.org/college.shtml>

- **CLI College** - Developmental Service Worker

Edmonton - This program is designed to help students to assist those with developmental, learning and /or physical disabilities or mental disorders. The programs are highly educative, incorporating the latest skills and knowledge that will allow the students to excel professionally.

<http://www.clicollege.ca/courses/developmental-service-worker-2/>

- **Academy of Learning Career College** - Community Service & Addictions Worker Diploma

Begin your career as a trained community service and addictions worker in under a year!

Do you want to make a difference in your community? Are you ready for a career where no two days are the same? If so, then you may be ideally suited to becoming a community service and addictions worker. By assessing client needs, assisting in social assistance programs, referring clients to other services, preparing reports, and more, community service and addictions workers help people from all walks of life regain control over their lives and recover from addiction.

https://www.academyoflearning.ab.ca/landing/community-service-addictions-worker-diploma.php?gclid=Cj0KCQjw9LPYBRDSARIsAHL7J5II-1uVgTLYfPgWuI3poOU9WhYvh4H-eSm5I_Jz1Q0ZjGuOabOB3jYaAgIkEALw_wcB

- **Reeves College** - Addiction and Community Services Worker

Launch a rewarding career as an Addictions and Community Services Worker in less than a year. Start today and get the hands-on training you need to find work in drug rehab centres, aboriginal agencies, group homes, mental health centres, and more.

http://www.reevescollege.ca/?adkey=000701&gclid=Cj0KCQjw9LPYBRDSARIsAHL7J5kfITE0ZXI5XzOp8CMjrSburYZo58mlAytvkJ9M3nTIUaOAJDuRj1QaAopXEALw_wcB

In Alberta, the following post-secondary institutions offer training programs in mental health that are up to two years in length:

- **Mount Royal University** in Calgary offers a 144 hour Children's Mental Health certificate program through Continuing Education. This program is designed for people who currently work with children who have mental health problems.

- **NorQuest College** in Edmonton offers a two year Mental Health Rehabilitation diploma program. Applicants must be 18 years old and have a high school diploma or equivalent with English Language Arts (ELA) 30-1 (or 70 per cent in ELA 30-2), and Biology 30. Other requirements include CPR Basic Life Support for Health Care Providers (Level C) certification, a clear criminal record check including vulnerable sector check and immunization records.

- NorQuest College also offers a one year Mental Health Rehabilitation certificate.

Trauma Informed Care and Practices eLearning – Alberta Health Services

[Trauma Informed Care Introductory Module](#)

Ontario Community Network of Specialized Care (NCNSC)

The Community Networks of Specialized Care (CNSC) are a way of linking specialized services and professionals to pool their expertise to treat and support adults who have developmental disabilities and mental health needs and/or challenging behaviours (ie. dual diagnosis) in the communities where they live. The Networks bring together people from a variety of sectors including developmental services, health, research, education and justice in a common goal of improving the coordination, access and quality of services for these individuals who have complex needs.

Signs of Safety

The Signs of Safety is an innovative strengths-based, safety-organized approach to child protection casework. The model and its approach was created in Western Australia by Andrew Turnell and Steve Edwards, who worked with over 150 front-line statutory practitioners and based it on what those practitioners know works well with difficult cases.

<http://www.signsofsafety.net/>

Alberta Caregivers Association

Caregiving can be a stressful, isolating, and overwhelming experience. It can have a negative impact on the caregiver's physical and mental health. COMPASS helps caregivers balance their own well-being with the challenges of caregiving.

COMPASS is a 9-module program is facilitated by someone who understands how difficult caregiving can be. We discuss dealing with guilt and grief, managing stress, improving communication, navigating the system and planning for the journey ahead. A complete list of the module topics is [available here](#).

Behaviour Supports Alberta (BSA)

Behavioural Supports Alberta (BSA) is a provincial network of service providers, caregivers, policy and decision makers, researchers, and academics interested in supporting those exhibiting challenging responsive behaviours (due to mental health conditions, addictions, cognitive impairment, developmental disabilities, brain injury and other neurological conditions), as well as those who support or offer care to them.

<https://rehabilitation.ualberta.ca/research/research-groups/behavioural-supports-alberta>

Supporting Positive Behaviour in Alberta Schools

Essential Components of Educational Programming for Students with Behavioural Disabilities (2006) identifies the components of appropriate programming mandated by Alberta Education. This online resource provides information and strategies for providing intensive, individualized support and instruction to professionals for the small percentage of students requiring this level of intervention.

http://www.learnalberta.ca/content/inspb1/html/10_individualbehavioursupport.html

The Institute for Continuing Care Education and Research (ICCER)

ICCER is a collaborative network of post-secondary institutions and continuing care provider organizations.

<http://www.iccer.ca/>

Portico Network

A network of addiction and mental health sites from across Canada.

Portico offers clinical tools and evidence-based materials for health care providers, social service workers and others. While the resources on the core Portico pages are designed for professional use, they can be of equal interest to those with lived experience and their families.

On this link you can find links to a number of resources and even some short video clips.

<https://www.porticonetwork.ca/treatments/disorders-qr/dual-diagnosis>

Surrey Place Centre

The Developmental Disabilities Primary Care Initiative has brought together clinicians with expertise in the care of adults with developmental disabilities (DD) to improve primary care and quality of life for these persons. With leadership and coordination from Surrey Place Centre, and funding from the Ontario Ministry of Community and Social Services, the Ontario Ministry of Health and Long-Term Care, and Surrey Place Centre Foundation, Guidelines and Tools have been developed to help primary care providers to follow best practices in the care of these patients.

[Click here to access available Tools for Primary Care Providers](#)

Health Care Access Research and Developmental Disabilities (H-CARDD)

A research program that aims to enhance the overall health and wellbeing of individuals with developmental disabilities through improved health care policy and improved services. Look for the many Practice resources within this website.

<https://www.porticonetwork.ca/web/hcardd/resources/videos/idd>

In Touch

In Touch gave young disabled people greater and easier access to services and information around sexual health. The project ran from 2007 to 2010 and many of the project resources are still available.

EBOOK: Supporting Individuals with Intellectual Disability and Mental Illness

The attached document is a collaborative book published by Dr. Susan Melrose. This text has been placed on <http://opentextbc.ca/caregivers/>

For a further description: <http://www.community-networks.ca/wp-content/uploads/2016/03/Supporting-Individuals-with-ID-and-Mental-Illness-free-book.pdf>

ARMIDILO-S – Risk Reduction Service Planning

The ARMIDILO-S is an assessment tool recently developed and the first of its kind with measurement in 27 valid risk and protective factors specifically for individuals with ID. Important information here is that sexual offending risk and behaviour are distinct. The tool is incredibly helpful in guiding service planning for more robust mitigation, in addition to a real measurement of the risk. It also measures protective factors; supervision, etc... The manual is free but professional competency is required and spelled out in the manual. <http://www.armidilo.net/>

The Community Networks of Specialized Care (CNSC)

Ontario organization linking specialized services and professionals to pool their expertise to treat and support adults who have developmental disabilities and mental health needs and/or challenging behaviours (ie. dual diagnosis) in the communities where they live. The Networks bring together people from a variety of sectors including developmental services, health, research, education and justice in a common goal of improving the coordination, access and quality of services for these individuals who have complex needs. <http://www.community-networks.ca/#main>

Positive Behaviour Supports for Children

This is website training that has focus for aides supporting children with disabilities. It is from Mount Royal University and the title is Positive Behaviour Supports. This resource provides evidence-based strategies for:

- Increasing adaptive behaviours and developmental skills
- Minimizing and managing challenging behaviors
- Working as part of a team
- Program planning, goal setting and evaluation

www.pbosc.info

Disability Advocacy through Advocacy Course

This online course will introduce advocates to how to use traditional and online media advocacy techniques to build awareness of disability issues. It will cover the use of social media, videos, websites and blogs for disability advocacy. It includes e-lectures, self-teaching assignments, and all-online readings and other resources. This course is a collaborative project between the [College of Fine Arts and Communication](#) and the Hussman Center for Adults with Autism, both at Towson University in Towson, Maryland, USA. For more information about the Hussman Center, visit its website here. They encourage disability advocates from around the world to translate it into other languages. To provide comments or ideas about the course, contact the creator of it, Beth Haller, at bah621@gmail.com. <http://disabilitymediaadvocacy.wordpress.com/>

Alberta Health has developed a standard curriculum for Health Care Aide training that is offered by postsecondary education institutions throughout the province:

- ABES (Alberta Business and Educational Services) in Calgary (private vocational school)
- ABM College of Health and Technology in Calgary (private vocational school)
- Academy of Learning in Edmonton, Calgary, Medicine Hat and Red Deer (private vocational school)
- Bow Valley College in Calgary
- Bredin Institute-Centre for Learning in Edmonton (private vocational school)
- Cambrooks College in Calgary (private vocational school)
- Columbia College in Calgary (private vocational school)
- CLI College of Business, Health and Technology in Edmonton (private vocational school)
- Keyano College in Fort McMurray
- Lethbridge College
- Medicine Hat College
- MTG Healthcare Academy in Calgary
- Nightingale Academy of Health Services Inc. in Edmonton (private vocational school)
- NorQuest College in Edmonton
- Northern Lakes College in the Slave Lake region
- Portage College in Lac La Biche, Bonnyville and Cold Lake
- Red Deer College
- Robertson College in Calgary and Edmonton (private vocational school)

- Sprott-Shaw Community College in Calgary and Edmonton (private vocational school)
- The Excel Academy in Edmonton (private vocational school)
- The Health Care Aide Academy in Red Deer (private vocational school)
- Training Inc. in Lethbridge (private vocational school)

The International Certificate Programme in Dual Diagnosis

<http://www.brocku.ca/dual-diagnosis/course-offerings>

Manual of Cognitive Behaviour Therapy for People with Mild Learning Disabilities and Common Mental Disorders © Camden & Islington NHS Foundation Trust and University College London, 2012

this manual describes the treatment of depression and anxiety disorders, it excludes depression with psychotic features as well as obsessive-compulsive disorder. It is designed for therapists who have CBT training, but have little to no experience with clients who have learning disabilities. For CBT interventions to be successful with people who have these kinds of disabilities, they need to be made more accessible and modified appropriately to cater to their cognitive abilities and complex communication needs. This manual provides instructions on how to do that, and outlines a therapeutic protocol that can be applied in treatment.

<https://www.ucl.ac.uk/psychiatry/cbt/downloads/documents/cbt-id-manual>

Skills System™

The Skills System is designed as a set of skills for [cognitively] challenged learners. The skills are built from DBT concepts and in many places are direct adaptations of the standard DBT curriculum.

DBT practitioners: Be prepared—the surgery to reconstruct and improve accessibility may seem radical. [Upon reading this book] The naive DBT clinician may say, “Where are all of the DBT terms?”, while the seasoned veteran will see how certain DBT skills are deconstructed and repackaged to meet the needs of [cognitively challenged] vulnerable learners. Most adaptations for people with intellectual disabilities politely add clipart and simplify through elimination. It is insufficient and fails to meet the needs of this population adequately.

The reconstruction of the DBT skills had to be done carefully and effectively. Three key elements were integral in this process: (1) the work of James Gross, PhD, in emotion regulation; (2) cognitive load theory (Sweller, 2010); and (3) ongoing collaboration with clients [at ICS] . It was necessary to keep DBT concepts intact, while simultaneously ensuring that the alternatives offered effective emotion regulation strategies in a user-friendly format consistent with DBT principles.
