

-
- Alberta's
Home to Hospital to Home
- TRANSITIONS
GUIDELINE**
- Keeping Albertans
and their
Circle of Care
Connected
- Alberta
- Alberta Health
Services
- University of
Alberta Health Services

How is the guideline connected to other initiatives?

- **Connect Care** - IT enabler
- **Community Information Integration/Central Patient Attachment Registry (Netcare)** - IT enabler
- **AHS/Primary Care Network service planning** - Guideline integrated into planning
- **Alberta Surgical Initiative** - All surgical sites across Alberta will aim to implement the guideline
- **Patient's Medical Home** - Enabler of improved transitions
- **AHS Review** - Includes transitions work within acute care
- **Strategic Clinical Networks** - Guideline initiative is aligning with pathway work

+15

patient/family advisors involved in this initiative.

Advisors also developed a **Transitions Through Patients' Eyes report** for health system leaders.

+750

stakeholders provided input on the Home to Hospital to Home Transitions initiative

“ Transitions are the **fuzzy grey space** between when one service stops and one service begins . . . I usually live in those grey spaces all by myself. ”
- Sandi, patient/family advisor

Questions? PHC.IntegrationNetwork@ahs.ca

How to use the guideline?

1. When planning transition initiatives, use the guideline to understand what processes and partnerships need to be in place to create safe, reliable and effective transitions.
2. A set of [measures](#) has been released with the guideline. Use the [measures](#) to monitor and assess transitions.
3. Transitions of care committees in each zone are developing implementation plans. More information will be shared by your zone in the coming months.

Guideline in action: ADAPT Grant

- ADAPT stands for A Disease-Inclusive Pathway for Transitions in Care.
- The ADAPT project is a \$1.3 million grant that will help implement three components of the guideline: admit notification, transition planning and follow-up to primary care.
- The plan is to implement in three waves across five acute care sites between 2021-22.
- The project is a Partnership for Research and Innovation in the Health System grant by Alberta Innovates.
