

CA Pre-Screening Process Overview

AHS offers a CA Pre-Screening Process for International Medical Graduates (IMGs) who are interested in obtaining a position as a Clinical or Clinical/Surgical Assistant (CA) within AHS. In order to apply, individuals must submit an application form and all required documentation. Once the successful application is reviewed, the applicant will receive a letter indicating that they have passed the pre-screening process, which must then be attached to the CV sent to any future applications for CA Postings on [AHS Careers](#).

Eligibility Requirements

All applicants for the CA Pre-Screening Process must meet the under-listed criteria. Please note that 1, 2 and 3 must be shared via Physicians Apply, while 4 should be emailed with the application form:

1. Medical Degree and Medical School Transcripts

Applicants must be a graduate of a medical school located outside of Canada and the United States, listed in the Foundation of Advancement of International Medical Education and Research (FAIMER) International Medical Directory (IMED).

2. Postgraduate Medical Education (PGME):

As a requirement for licensure by the College of Physicians and Surgeons of Alberta (CPSA), applicants must have completed at least one full year (e.g. May 1st to April 30th) of hands-on training after having completed his/her undergraduate medical training, no exceptions.

Internship, Residency, Clinical Rotations, Housemanship etc. undertaken after undergraduate medical training for a minimum of one year, generally tend to meet this requirement amongst many other supervised postgraduate hands on training. Speciality training must show evidence of being hands on and supervised for it to meet this requirement.

3. Medical Council of Canada Qualifying Examination Part I (MCCQE1):

Applicants must have passed the MCC Qualifying Exam Part 1 prior to application.

4. English Language Proficiency:

As a requirement for licensure by the CPSA, applicants must have taken the Academic version of International English Language Testing System (IELTS), achieving a minimum score of 7.0 in each of the components. All IELTS test results in support of pre-screening applications must be certified (notarized) by a Notary Public or any other government authorized entity. This requirement may be waived if an applicant is eligible for an exemption based on guidelines set out on the [CPSA](#) website.

Application Process

Applications for the CA Pre-Screening Process are accepted on an ongoing basis. Incomplete applications are denied. Applications are processed within 4 weeks, in the order they are received.

Once you have submitted your application, AHS will check to determine that:

- 1) The application package has been properly submitted i.e. completed and duly signed application form, and certified (notarized) IELTS results; and

- 2) All supporting documents have been shared via the Physicians Apply portal. Supporting documents emailed with application package will not be reviewed; and
- 3) All documentation meets program requirements.

Applications packages are incomplete if any or all of the below applies:

- 1) The application package is missing required documentation;
- 2) All required documentation has not been shared via the Physicians Apply portal;
- 3) Any documentation submitted does not meet requirements.

Upon successful application, a Pre-Screen Letter will be issued which will indicate that the individual has met all the requirements necessary in order to apply for any AHS CA Positions.

Prescreen Letter Expiration and Renewal

The Prescreen Letter will have an expiry date directly linked to the IELTS test results date; these results must be current within 24 months in order to obtain licensure, so the letter will only be valid so long as the IELTS test results are valid.

To avoid expiration of the Prescreen Letter an applicant must email a new IELTS test result on or before the expiry of the current one. These new test results must meet the original requirements. If the new test result is not received and the letter expires, the candidate's file will be closed. Consequently, he/she will need to send in a new application package with the existing rules at the time of re-applying. It is therefore the responsibility of the individual to ensure that his/her Pre-Screen Letter is up-to-date.

NOTE: As this Pre-Screen Letter is provided by AHS, the letter may only be used for the purposes of applying to any open CA positions within AHS. This letter may not be used for any other purpose. This letter also does not guarantee that the CPSA will grant licensure, as their licensing procedures are beyond the control of AHS.

Protecting Your Information

Your personal information is only collected for the purposes of applying for the CA Pre-Screening Process, and will only be viewed by physicians and AHS employees who will evaluate your application. Your information is not disclosed to anyone else without your written consent, unless authorized by the provisions of the [Personal Information Protection Act](#).
