Date: June 27, 2019

To: All AHS Medical Staff

From: Dr. Robert Hayward, Chief Medical Information Officer, Clinical Information Systems
Debbie Pinter, Executive Director, Clinical Knowledge and Content Management

Re: CKCM Posting to Recruit Provincial Clinical Knowledge Lead – Surgery (Orthopedics, Plastics, Podiatry, Neurology)

Dear Colleagues,

The Chief Medical Information Office (CMIO) and the Clinical Knowledge and Content Management (CKCM) program is recruiting a physician Provincial Clinical Knowledge Lead to guide the development of provincial knowledge topics, with respect to **Surgery (Orthopedics, Plastics, Podiatry, Neurology)**, which provides evidence-informed approaches to clinical care. When completed, a knowledge topic will include the development of order sets, decision support tools, documentation templates, and other associated tools.

Interested physicians must be able to work collaboratively within the disciplines of **Surgical – Orthopedics, Plastics, Podiatry, Neurology** and act as champions amongst their colleagues in these areas. The created knowledge topics will be used as a foundation in Alberta Health Services (AHS) Connect Care clinical information systems (CIS), and therefore, will be implemented provincially with the CIS rollout. Other current CISs (SCM, Meditech, eClinician) and those areas using paper documentation will also have access to these tools.

The **Surgery** Provincial Clinical Knowledge Lead will report to the CMIO and work closely with stakeholders such as the Connect Care Area Councils and Strategic Clinical Network (SCN) leadership. The Provincial Clinical Knowledge Lead will also represent their relevant discipline in applicable provincial governance structures. This position is estimated to be a contracted position of 0.1 FTE allotment, for a one year term and re-evaluated annually.

A full position description can be found on the Alberta Health Services website under Careers – Medical Leadership Opportunities via the link below.
