

# How we partner, together

Step 1

Step 2

Step 3

Step 4

Step 5

## Idea Generation

Appropriateness ideas are generated from every level of the health system.

## Idea Development

- Gather data and evidence
- Evaluate the feasibility
- Consult with others
- Think about how to make it happen

## Project Planning

- Ensure stakeholders are engaged
- Risks must be considered
- Activities and milestones on track

## Implementation & Reporting

- Assemble the right teams
- Deliver objectives
- Report successes

## Sustained Success

Success is long-term and part of your day-to-day operations.

The Right Care Alberta team is dedicated to understanding front-line workers and their patients. Our approach is to listen and learn, change and improve, together.
