

I.D. Me Every Time.

When we match your I.D. with your medication or treatment, we ensure the right person receives the right care.

To keep you safe, staff will check your **NAME** and **DATE OF BIRTH** every time you:

- arrive at an AHS Facility
- receive care from a healthcare provider

ASK ME MATCH ME WHEN I:

- am transferred to another unit or department
- receive medication
- have lab work, treatment, or procedures (e.g. taking blood, x-rays, therapy)

NAME and **DATE OF BIRTH** are two identifiers that can be used. For a full list please see the [Patient ID Policy](#) on [ahs.ca](#).

Let's do it right. Always say I.D ME!
