

Community based naloxone kit distribution

Weekly tracking tool

This optional tracking tool can be used to track weekly community based naloxone kit distribution, including the number of individuals trained and the number of reported reversals. The notes section can be used for any other pertinent information. This weekly tracking tool can be used to feed information into the community based naloxone kit monthly reporting tool.

Month/Year:						
Week	# of kits start of week	# of kits distributed	# of people trained	# of reported reversals	Notes	# of kits end of week*
<i>Week 1</i> <i>Jan 5-11</i>	86				2 expired kits returned	51
Month total						

*# of kits end of week = # of kits start of week – # of kits distributed

Month/Year:						
Week	# of kits start of week	# of kits distributed	# of people trained	# of reported reversals	Notes	# of kits end of week*
Month total
