

Safety and Respect

ZERO TOLERANCE — We don't permit insults, threats or actions that may hurt or scare others. To help keep everyone safe — patients, visitors, physicians, staff, and volunteers — everyone who enters must follow these rules at all times:

There is a Protective Services Safety Screening area ahead. Everyone will be asked to show the contents of their bag and pockets during safety screening.

Everyone entering the Emergency Department (ED) is allowed to bring **only 1 bag** in with them. Please leave unnecessary items in a vehicle or stored elsewhere.

Secure lockers are available to store your items. AHS is not responsible for any items lost or damaged while stored in the lockers.

Items that could harm others, including weapons, are not allowed within the hospital.

Amnesty bins are available to those who wish to surrender weapons.

If you choose not to take part in safety screening, your care may be provided in a different way.
