What is an AHS IAM Security Profile?

All end-users of AHS IAM must set up their AHS IAM Security Profile. You will be prompted at first login to complete it. This one-time step takes only minutes to complete and gives you access to AHS IAM functions and features.

Completing an AHS IAM Security Profile also gives you the ability to:

- Authenticate your identity with the AHS IT Service Desk and Alberta Health Provincial Help Desk by using your Secret Word.
- Unlock your own AHS Network account after too many unsuccessful login attempts by using the security questions and answers you set up.
- Reset your own forgotten AHS Network password by using the security questions and answers you set up.
- Change your AHS Network password if you believe it has been compromised or you just want to change it.

First Login to AHS IAM

ENTER the AHS IAM URL into your internet web browser O https://iam.ahs.ca

The AHS IAM Login screen appears

CREATE a browser favourite / bookmark

Change your AHS Network Password

If you believe your AHS Network password has been compromised or you just want to change it, you can change it yourself in AHS IAM and save a call to the AHS IT Service Desk.

If you don't remember your AHS Network Password, you can also reset it yourself in AHS IAM and save a call to the AHS IT Service Desk.

- Use the AHS desktop icon Forgot Password?, or
- Use the Forget Your Password? link on the <u>AHS.ca Staff Portal page</u>, Internal Staff Tools.
- For more information and how-to steps, please see the <u>AHS IAM Self-Serve</u> <u>Password Reset User Guide</u>.

Review / Update your AHS IAM Identity Account

 We have included the following information and directions about your AHS IAM Identity Account because View Profile is on the same drop down menu as Change Password and Update Security Profile.

Your AHS Identity Account is not your AHS IAM Security Profile. Your AHS IAM Identity Account is your identity record within the AHS IAM system; your entitlements and resources are attached to this identity record. You are welcome to review it and make changes if needed, but this is not a requirement when completing your AHS IAM Security Profile.
