

Continuing Care Edmonton Zone Hospices

Hospices are available to individuals living in the Edmonton area who prefer this as place of care in last weeks to months of life or individuals whose care needs can no longer be met at home.

Specialized teams of health care professionals and volunteers provide 24-hour care focused on quality of life for individuals and families at end of life and through bereavement. The interdisciplinary team concentrates on easing the physical, emotional and spiritual suffering that often accompanies the end of life journey.

The Continuing Care Edmonton Zone Palliative Care Program delivers residential hospice care in partnership with the contracted providers listed below.
