novel coronavirus (COVID-19)

Edmonton Zone

Grey Nuns Community Hospital:
There is currently one unit on outbreak at Grey Nuns Community Hospital. The outbreak involves at least one variant case.

- An outbreak was declared at the Grey Nuns Community Hospital on March 13, 2021.
  - There are 13 active cases in patients who have tested positive for COVID-19 associated with these outbreaks.
  - There are six healthcare workers that have tested positive for COVID-19 associated with this outbreak.
  - Sadly, we have to report three deaths have been associated with this outbreak. On behalf of the entire Covenant family, we offer our deepest condolences to the patients’ family and loved ones at this difficult time.

All patients and healthcare workers connected to the affected unit are being tested. The unit is closed to admissions and transfers and visitation is restricted.

Leduc Community Hospital (LCH):
There are currently two outbreaks at LCH.

- A new outbreak was declared on two units at LCH on April 8, 2021.
  - One patient linked to these outbreaks has tested positive for COVID-19. This remains unchanged since our last update.

Misericordia Community Hospital (MCH):
There is one unit currently on outbreak.

- An outbreak was declared at the Misericordia Community Hospital on April 10.
  - There are two staff cases associated with this outbreak.

The unit is currently closed to admissions and visitation is limited.

South Zone

Raymond Health Centre:

Raymond Health Centre is currently on outbreak effective April 21, 2021.

- One healthcare worker linked to this outbreak has tested positive for COVID-19

Outbreak Protocols

Outbreak control measures have been implemented on each of the affected units. Any patient with symptoms, or who has tested positive for COVID-19, is isolated and treated in designated rooms.

All at-risk patients on each unit have been tested. Contact tracing for patients and healthcare workers potentially exposed to these individuals is ongoing.

All AHS facilities follow rigorous Infection Prevention and Control standards and practices. All healthcare workers are asked to self-assess for COVID-19 symptoms and exposure risk using a screening tool before reporting to a site for their shift, and our frontline teams are practicing continuous masking and diligent hand hygiene practices while at work.

Designated family/support persons and visitors entering AHS facilities are instructed to follow all appropriate measures. Visitation restrictions are in place to minimize risk of transmission to and from outside of the hospital.

If you are feeling unwell, please do not visit friends and loved ones in hospital at this time.

For visitation information and restrictions at our AHS healthcare facilities please see the Family Support & Visitation page.

Note: As of Apr. 22, all healthcare worker COVID-19 cases still under investigation, or where the source of infection is inconclusive or indeterminate, will be counted as part of an acute care outbreak case count.

Thus, as cases are under investigation, numbers may fluctuate as cases are resolved.
