

Family Presence

Family and support persons are more than visitors - they are partners in care

Tell us who you want involved!

Designated family/support persons are welcome any time based on patient preference and in coordination with the patient care team.

Everyone has a role to play in keeping our sites and services safe. Please discuss with the care team how you can be a partner in care.

Family Presence

Family and support persons are more than visitors - they are partners in care

Tell us who you want involved in conversations about your health.

Having a designated family/support persons with you at your appointments can increase comfort and safety.
