

1

CLEAN + DISINFECT to prevent COVID-19.

Clean visible dirt with

- Soap or baby wipes for hands and body
- Detergent for clothing and surfaces

Disinfect to destroy the virus with

- Disinfectant wipes (e.g., Clorox, Lysol) for surfaces
- Bleach or hydrogen peroxide for surfaces
- Alcohol (at least 70%) for hands and surfaces

What to Clean

- Wash before and after cleaning your space, and before and after using drugs
- Drug packaging: baggies, vials, packets, foil, papers
- Counter, table or surface before and after use
- Faucets, door knobs, drawer or cabinet handles
- Any equipment being reused (e.g., lighter, pipe)
- Equipment packaging (e.g, syringes, cookers, condoms)

- Take care of your skin to avoid skin breakdown from frequent cleaning.
- Use lotion, petroleum jelly, or whatever is available.

Visit drugsafe.ca or call the Addiction Helpline 1-866-332-2322 (24/7) for support.
