

NOTICE: Updated Link for Provincial COVID-19 Primary Care Pathway.

As of May 2024 this pathway has moved to the provincial website for pathways: [Alberta's Pathway Hub](#).

Please go to: www.ahs.ca/assets/info/aph/if-aph-ppph-prov-covid-19-primary-care-pathway.pdf for the latest information.

No clinical updates were made to the pathway, aside from a small number of outdated links and template improvements. The new link is being updated wherever possible, however this notice will remain accessible for those who may have bookmarked the previous link.

Note: This change is part of broader improvements aimed at simplifying access to clinical, referral, and patient pathways through a centralized platform, supported by a dedicated team for standardized development and maintenance across Alberta.
